DATAFY (2024)
OCVIBE area share of Anaheim visitor days
5.2%

ANAHEIM, Calif. (Oct. 13, 2026): Anaheim's visitor economy is expanding ahead of OCVIBE's first openings in early 2027, Visit Anaheim Business Intelligence reported. Visitors spent **$1.76 billion** in the second quarter of 2026, up **7.8%** from a year earlier (Tourism Economics, Sept. 2026), and hotel revenue per available room rose **11.4%** (LARC, Sept. 2026).

The OCVIBE area already accounts for **5.2%** of Anaheim visitor days (Datafy, 2024). In District 5, **85.8%** of visitors stay overnight and **43.8%** are first-time visitors (Azira, Jan.–May 2026).

Hotels have room on weeknights. Visit Anaheim's hotels ran **70.6%** full on Sunday–Monday nights in 2026 vs. **86.2%** on Friday–Saturday, and Jan., May, Aug. and Sept. weeknights had the most open rooms (STR, Jan.–Sept. 2026). Each point of Sunday–Monday occupancy is worth about **$5.1M** in room revenue a year (**21,318 rooms** × 1 point × 104 Sunday and Monday nights a year = **22,171 room nights**; × **$229.90** average Sunday–Monday rate = **$5.1M**).

Sept. 2026; data to Aug. 31, 2026); LARC Market Intelligence Reports (Jan.–Sept. 2026); Datafy Anaheim visitor report (calendar 2024); Azira via Symphony (District 5, Jan. 1–May 31, 2026; domestic visitors, Aug. 2026); STR daily data, Visit Anaheim hotel sets (Jan. 1–Oct. 3, 2026); OCTA Traffic Flow Map (pub. Aug. 2026) and bus schedules (Aug. 9, 2026 onward; ARTIC routes unchanged Nov. 8, 2026); BizBash (Sept. 16, 2026); Visa Destination Insights via Symphony (Aug. 2026 vs. Aug. 2025).

Main announcement (continued)

Groups, access and what the report covers

Groups are a growing source of weekday guests. Convention Center room nights for 2027 are pacing **17%** ahead (LARC, Sept. 2026), and Disney's D23 evening showcases drew **36,000**+ guests to Honda Center over three nights alongside the Convention Center expo (BizBash, Sept. 2026).

Most visitors drive: **74.0%** of domestic trips start within 50 miles, and SR-57 beside the district carries about **275,000 vehicles** a weekday (Azira, Aug. 2026; OCTA, Aug. 2026). ARTIC adds 277 weekday bus trips, Amtrak and Metrolink, but only 11 buses leave after 10 p.m.

The full report covers Anaheim and the OCVIBE area today, visitor spending, jobs, one more night, getting here, who visits, marketing reach, hotels and the market outlook, with the source and date for every figure.

Sept. 2026; data to Aug. 31, 2026); LARC Market Intelligence Reports (Jan.–Sept. 2026); Datafy Anaheim visitor report (calendar 2024); Azira via Symphony (District 5, Jan. 1–May 31, 2026; domestic visitors, Aug. 2026); STR daily data, Visit Anaheim hotel sets (Jan. 1–Oct. 3, 2026); OCTA Traffic Flow Map (pub. Aug. 2026) and bus schedules (Aug. 9, 2026 onward; ARTIC routes unchanged Nov. 8, 2026); BizBash (Sept. 16, 2026); Visa Destination Insights via Symphony (Aug. 2026 vs. Aug. 2025).

Summary of findings

Each finding with its source and date

- Anaheim's visitor economy: **26.5M** visitors spent **$6.83B** in 2025 and supported **67,817 jobs**; Tourism Economics forecasts **27.0M** visitors and **$7.2B** for 2026. These are City of Anaheim totals; the OCVIBE area accounted for **5.2%** of Anaheim visitor days in 2024. (Source: Tourism Economics, Economic Impact of Visitors (calendar 2025; pub. 2026); Tourism Economics, Anaheim Travel Forecast (Sept. 2026); Datafy Anaheim visitor report (calendar 2024))
- Orange County market: **51.3M** visitors in 2025 (**22.1M** overnight; **93.3%** domestic); **55.4%** from Southern California and **37.0%** traveling with children (latest county survey, 2019); **60,224** hotel rooms at **75.2%** occupancy and **$221.67** ADR in Jan.-Aug. 2026, with July the peak month. (Source: Tourism Economics, Economic Impact of Visitors to Orange County, 2025 (pub. May 2026); CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020); CoStar, Orange County hotel market (monthly data through Sept. 2026; market report Oct. 12, 2026))
- Getting to OCVIBE: SR-57 beside the district carries about **275,000 vehicles** a weekday; ARTIC has 277 weekday bus trips but only 11 leave after 10 p.m.; the City lists **12,369–12,823** planned parking spaces. (Source: OCTA Traffic Flow Map (pub. Aug. 2026) and bus schedules (Aug. 9, 2026 onward; ARTIC routes unchanged Nov. 8, 2026); City of Anaheim OCVIBE page (2026); OCVIBE fact sheet (Apr. 2024))
- Visitors spend more each trip: about **$258** per Anaheim visitor in 2025, forecast to reach **$279** by 2028; Q2 2026 spending rose **7.8%** vs. Q2 2025. (Calculation: **$6.83B** visitor spending ÷ **26.5M** visitors = **$258** per visitor) (Source: Tourism Economics, Economic Impact 2025 (pub. Apr.–May 2026); Tourism Economics, Travel Forecast (pub. Sept. 2026; data to Aug. 31, 2026))
- The visitor economy supports **67,817** Anaheim jobs (one in three); food and beverage is **16.8%** of them, **29.1%** countywide. (Source: Tourism Economics, Economic Impact 2025 (pub. Apr.–May 2026))
- One more night per visitor is worth about **$794 million** in lodging spending, and about **$1.0 billion** counting all spending by overnight visitors. (Calculation: **$1.724B** 2025 lodging spending ÷ **2.17**-day average stay = **$794M**; **8.6M** overnight visitors × **$118.71** per visitor day = **$1.02B**) (Source: Visit Anaheim BI, Extra Night study (2025 inputs; recalculated Oct. 12, 2026))
- OCVIBE sits on one of the county's busiest corridors (SR-57, about **275,000 vehicles** a day) next to ARTIC's 277 weekday bus trips; a resort–ARTIC transit link is under study for 2028. (Source: OCTA Traffic Flow Map (pub. Aug. 2026) and bus schedules (Aug. 9, 2026 onward; ARTIC routes unchanged Nov. 8, 2026))
- District 5 visitors are mostly overnight (**85.8%**) and Southern Californian, and Datafy already measures OCVIBE in **5.2%** of Anaheim visitor days. (Source: Azira via Symphony (District 5, Jan. 1–May 31, 2026; domestic visitors, Aug. 2026); Datafy Anaheim visitor report (calendar 2024))
- Resort-area hotels fill **78.4%** of rooms (CoStar Disneyland submarket, the highest in the county), and only **668 rooms** are under construction countywide, so new hotel supply is scarce. (Source: CoStar reports and export (data through Aug. 2026; pulled Oct. 12, 2026))
- Anaheim hotels are outpacing the U.S. (Q2 2026 revenue per room vs. Q2 2025: Anaheim **+11.4%**, U.S. **+5.7%**), conventions are pacing ahead, and the 2028 Olympics come to Anaheim; inflation and labor costs are the main headwinds. (Source: LARC Market Intelligence Reports (Jan.–Sept. 2026))
- Hotels near OCVIBE have room on Sunday and Monday nights (**70.6%** occupancy vs. **86.2%** Friday–Saturday, STR 2026), and visitor card spending rose **8.1%** in August 2026 vs. August 2025 (Visa); rail at ARTIC carried **191,153** Amtrak passengers in 2024. (Calculation: (Sunday **70.6%** + Monday **70.5%**) ÷ 2 = **70.6%**; (Friday **85.7%** + Saturday **86.8%**) ÷ 2 = **86.2%**) (Source: STR daily data, Visit Anaheim hotel sets (Jan. 1–Oct. 3, 2026); Visa Destination Insights via Symphony (Aug. 2026 vs. Aug. 2025); Amtrak ANA fact sheet (2024 data; pub. Oct. 27, 2025); Metrolink FY26 Q2 (Oct.–Dec. 2025))

Key takeaways

The headline number from each section, with its period

ANAHEIM AND OCVIBE TODAY

$6.83B — **Anaheim visitor spending, 2025 (Tourism Economics)**

Anaheim welcomed **26.5 million** visitors who spent **$6.83 billion** in 2025

ORANGE COUNTY TOURISM

51.3M — **Orange County visitors, 2025 (Tourism Economics)**

Orange County draws **51.3 million** visitors a year; hotels fill **75%** of rooms in 2026

WHO VISITS

85.8% — **of District 5 visitors stay overnight**

Most District 5 visitors stay overnight, and **44%** are new

VISITOR SPENDING

$258 — **spent per Anaheim visitor, 2025**

Anaheim visitors spent **$1.76 billion** in the second quarter, up **7.8%** from a year earlier

JOBS AND ECONOMY

67,817 — **Anaheim jobs supported, 2025**

Visitors supported **67,817** Anaheim jobs in 2025, one in three

HOTEL MARKET

78.4% — **Disneyland submarket hotel occupancy, past 12 months**

Resort-area hotels fill **78%** of rooms while new supply stays scarce

ONE MORE NIGHT

$794M — **one more night of lodging spending**

One more night per visitor is worth about **$794 million** in lodging

GETTING HERE

275K — **vehicles a day on SR-57 at OCVIBE**

275,000 vehicles a day pass OCVIBE on SR-57

MARKETING REACH

368,416 — **observed visits after ad exposure**

Visit Anaheim marketing drove **368,416** observed visits this year

MARKET OUTLOOK

+11.4% — **Anaheim hotel revenue per room, Q2 2026 vs. Q2 2025**

Anaheim hotel revenue per room up **11.4%** from a year

How this report reads

Each section is a news report (lede, why it matters, the details) followed by analysis · sections in reading order

Section	The question it answers	Why the next section follows
Anaheim and OCVIBE today	Where do Anaheim's visitor economy and the OCVIBE area stand today?	Orange County tourism: Anaheim sits inside a larger county market. The next section sizes Orange County: arrivals, origins, seasonality, visitor profile and hotels.
Orange County tourism	How many visitors come to Orange County, from where and when, who are they, and what hotel capacity serves them?	Who visits: With the county market sized, the next question is who visits the OCVIBE area itself.
Who visits	Who visits District 5 and the OCVIBE area, and where do they come from?	Visitor spending: Knowing who visits leads to what each visitor is worth. Spending per visitor converts audience size into economic value.
Visitor spending	How much does each visitor spend, and how is that changing?	Jobs and economy: Spending is the input; jobs and tax revenue are the outcome. The next section traces how visitor dollars move through the Anaheim and Orange County economy.
Jobs and economy	What does the visitor economy support in Anaheim, Garden Grove and Orange County?	Hotel market: Lodging is one of the largest categories of visitor spending ($1.724B in 2025), so hotel capacity comes next: how full Anaheim hotels are, at what rate, and on which nights rooms are open.
Hotel market	How are hotels around OCVIBE performing, and is there room for more?	One more night: Open rooms on Sunday and Monday nights point to the most direct lever, longer stays. The next section measures what one more night per visitor is worth.
One more night	What is one more night per visitor worth to Anaheim?	Getting here: Longer stays depend on how easily visitors arrive and leave, especially after evening events. The next section examines road, bus and rail access to the OCVIBE area.
Getting here	How do people get to OCVIBE, and what transportation changes are coming?	Marketing reach: Access determines who can come; marketing influences who chooses to. The next section shows how paid media converts into measured visits.
Marketing reach	Does Visit Anaheim's marketing bring visitors who can reach OCVIBE?	Market outlook: With audience, value, capacity, access and reach measured, the last section looks at the market conditions OCVIBE will open into.
Market outlook	What in the hotel and market outlook will affect OCVIBE?	Reports and data library: Every report and data file behind these sections can be opened or downloaded in the library; the Appendix and Sources follow.

How this report is updated

Updated quarterly · Data last updated Oct. 19, 2026

Visit Anaheim Business Intelligence updates OCVIBE Insights each quarter, after Tourism Economics delivers its quarterly Anaheim Travel Forecast, and sooner when new data arrives. The data was last updated Oct. 19, 2026.

WHO

Visit Anaheim BI

Business Intelligence team

Prepares each update and checks every figure against its source before it is published. Questions go to bi@visitanaheim.org.

Source: Visit Anaheim BI, quarterly refresh runbook (Oct. 13, 2026; cadence confirmed Oct. 14, 2026)

WHAT

Changed figures only

New published or measured values

Each update replaces only figures that have a new published or measured value, with the new period and publication date, and rewrites any sentence that cites them. A source with nothing new keeps its current, dated figures; no figure is estimated to fill a gap.

Source: Visit Anaheim BI, quarterly refresh runbook (Oct. 13, 2026; cadence confirmed Oct. 14, 2026)

WHEN

Quarterly

Each quarter, or sooner when new data arrives

Updates follow Tourism Economics' quarterly forecast and are posted as soon as new data is received and checked. Data last updated Oct. 19, 2026.

Source: Visit Anaheim BI, quarterly refresh runbook (Oct. 13, 2026; cadence confirmed Oct. 14, 2026)

WHERE

3 formats

Dashboard, deck and data tables

Each update is published to the dashboard (oc-vibe-insights.vercel.app and the claude.ai dashboard), the downloadable PowerPoint deck and the data tables (Excel and CSV).

WHY

Every quarter

Tourism Economics forecast cycle

Tourism Economics data is the core of this report (Anaheim's visitor volume, spending and forecast), and its Anaheim Travel Forecast arrives each quarter. STR, CoStar and Visa are available weekly or monthly and Azira monthly; they are pulled at the same time, so every figure in an edition shares one as-of date.

Source: Tourism Economics, Anaheim Travel Forecast (quarterly); Visit Anaheim BI, quarterly refresh runbook (Oct. 13, 2026; cadence confirmed Oct. 14, 2026)

HOW

4 steps

Find, update, check, publish

Find the newest file from each source; update only changed figures and the sentences that cite them; check every number against its table and source; republish the dashboard, deck and data tables with the new dates.

VISITOR SPENDING

per Anaheim visitor, 2025

$258

What does the average visitor spend?

ONE MORE NIGHT

one more night of Anaheim lodging spending

$794M

What is one more night per visitor worth?

TRANSPORTATION

Anaheim transportation and gas station jobs supported by visitors, 2025

2,080

What is the economic impact of visitor transportation?

DISTRICT 5 AND WHO VISITS

of District 5 visitors stay overnight

85.8%

Who visits District 5, where OCVIBE is being built?

Question	Short answer
What does the average visitor spend?	Each Anaheim visitor spent about **$258** in 2025. Countywide, the average was **$350** per visitor, and across the U.S. travel spending came to about **$553** per trip.
What is one more night per visitor worth?	If every Anaheim visitor stayed one more night, lodging spending would rise about **$794M**. Counting all spending, one more day for overnight visitors is worth about **$1.02B**, and one more day for every visitor about **$3.15B** (the study's upper bound).
What is the economic impact of visitor transportation?	Visitors spent **$224M** on transportation in Anaheim in 2025 (**3.3%** of spending), supporting **2,080 jobs** in transportation and gas stations. Countywide: **$707M** and **6,141 jobs**. Statewide, visitors spent **$25.2B** on local transportation, gas and air (**17.9%** of visitor spending).
Who visits District 5, where OCVIBE is being built?	**85.8%** of District 5 visitors stay overnight and **43.8%** are first-time visitors (Jan.–May 2026). Their median household income is **$85.7K**, above the **$79.9K** for all Anaheim and Garden Grove visitors and the **$85.4K** U.S. household median.

Source: Visit Anaheim Business Intelligence (Oct. 14, 2026); sources on each question slide.

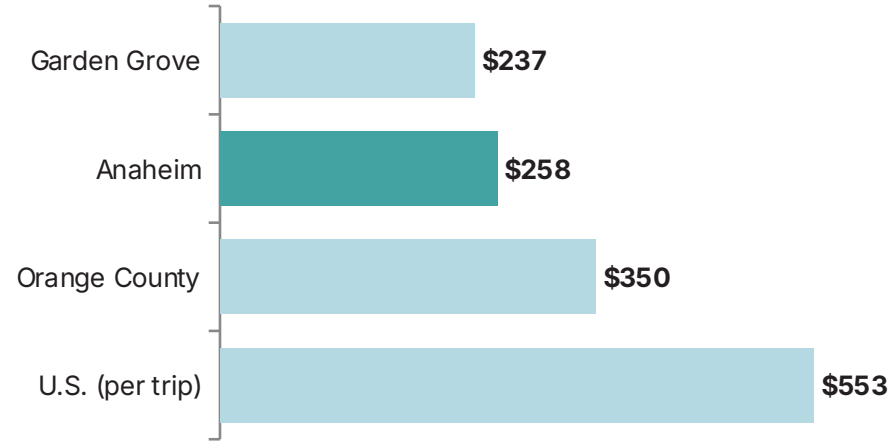

What does the average visitor spend?

Visitor spending · Anaheim, Orange County and U.S.

Each Anaheim visitor spent about **$258** in 2025. Countywide, the average was **$350** per visitor, and across the U.S. travel spending came to about **$553** per trip.

Geography	Value	Detail
Anaheim	**$258**	**$6.832B ÷ 26.5M visitors (2025)**
Garden Grove	$237	$769.3M ÷ 3.24M visitors (2025)
Orange County	$350	Published by Tourism Economics; day visitors $58, overnight $737 (2025)
U.S.	$553 per trip	$1.360T ÷ 2.46B trips (2025, real 2025 dollars); domestic $494

Spending per visitor or trip, 2025

HOW IT IS CALCULATED

Spending per visitor = visitor spending ÷ visitors. Tourism Economics counts a visitor as anyone who stays overnight or travels more than 50 miles. The U.S. figure is per trip (domestic and international), in 2025 dollars.

KEEP IN MIND

Day trips pull averages down: **67.5%** of Anaheim visitors are day visitors vs. **57.0%** countywide, and Orange County overnight visitors spend **$737** each vs. **$58** for day visitors. Compare direction, not exact levels, across sources.

Source: Tourism Economics, Economic Impact of Visitors 2025 (pub. Apr.–May 2026); U.S. Travel Association and Tourism Economics, Travel Forecast, Spring 2026 (real 2025 dollars). Files in the app library: Economic Impact of Visitors to Anaheim, 2025; Economic Impact of Visitors to Garden Grove, 2025; Economic Impact of Visitors to Orange County, 2025; Anaheim and Garden Grove Travel Forecast, Sept. 2026 (Q2 2026 results).

Average spend: Anaheim, Orange County, California and U.S.

The detail behind: What does the average visitor spend?

Geography	Spending per visitor or trip	How it is calculated	Year
Anaheim	**$258**	**$6.832B ÷ 26.5M visitors**	**2025**
Garden Grove	$237	$769.3M ÷ 3.24M visitors	2025
Orange County	$350	Published by Tourism Economics (day $58, overnight $737)	2025
U.S., per trip	$553	$1.360T ÷ 2.46B trips (real 2025 dollars)	2025
U.S., per domestic trip	$494	$1.185T ÷ 2.40B domestic trips	2025

HOW IT IS CALCULATED

Spending per visitor = visitor spending ÷ visitors. Tourism Economics counts a visitor as anyone who stays overnight or travels more than 50 miles. The U.S. figure is per trip (domestic and international), in 2025 dollars.

KEEP IN MIND

Day trips pull averages down: **67.5%** of Anaheim visitors are day visitors vs. **57.0%** countywide, and Orange County overnight visitors spend **$737** each vs. **$58** for day visitors. Compare direction, not exact levels, across sources.

Source: Tourism Economics, Economic Impact of Visitors 2025 (pub. Apr.–May 2026); U.S. Travel Association and Tourism Economics, Travel Forecast, Spring 2026 (real 2025 dollars) (accessed Oct. 14, 2026).

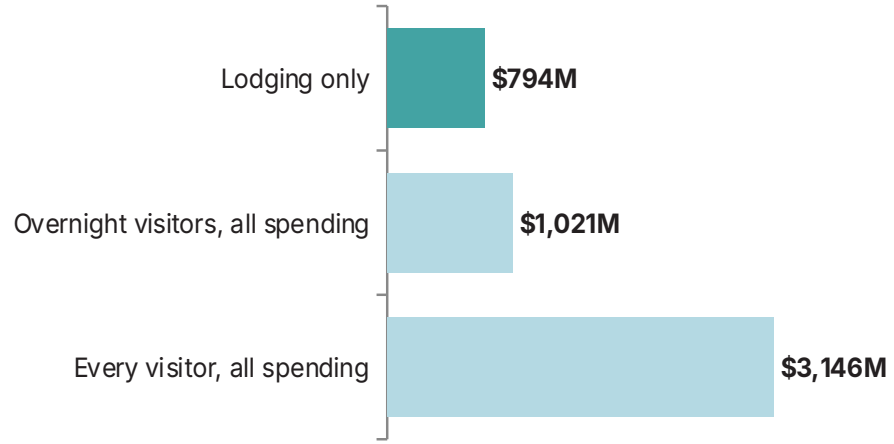

What is one more night per visitor worth?

One more night · Anaheim, Orange County and U.S.

If every Anaheim visitor stayed one more night, lodging spending would rise about **$794M**. Counting all spending, one more day for overnight visitors is worth about **$1.02B**, and one more day for every visitor about **$3.15B** (the study's upper bound).

Geography	Value	Detail
Anaheim, lodging (headline)	**$794M**	**$1.724B lodging spending ÷ 2.17-day weighted average stay**
Anaheim, overnight visitors	$1.02B	8.6M overnight visitors × $118.71 per visitor-day
Anaheim, every visitor (upper bound)	$3.15B	$6.832B ÷ 2.17 days; total with the extra day $9.98B
Orange County	$737 vs. $58	Spending per overnight visitor vs. per day visitor (2025), 12.7 times as much

One more night or day in Anaheim, three ways ($M)

HOW IT IS CALCULATED

Weighted average stay = **93.2%** domestic × **1.9 days** + **6.8%** international × **5.9 days** = **2.17 days** (Azira stays; Tourism Economics visitor mix). Spending per day = 2025 spending ÷ **2.17**. Spending per visitor-day = **$6.832B** ÷ (**26.5M** × **2.17**) = **$118.71**.

KEEP IN MIND

These are scenarios that hold spending per day constant; they are not forecasts. The study deck shows **$9.9B** for the total; the calculation gives **$9.98B**. A countywide version needs Orange County length of stay, which can be pulled from Azira at the next update.

Source: Visit Anaheim Extra Night study; Tourism Economics, Economic Impact of Visitors 2025 (pub. Apr.–May 2026); Visit Anaheim BI calculation; Visit Anaheim Extra Night study; Tourism Economics, Economic Impact of Visitors 2025 (pub. Apr.–May 2026). Files in the app library: One more night study (Extra Night Calculation); One more night workbook (TID Request data); Economic Impact of Visitors to Anaheim, 2025; Economic Impact of Visitors to Orange County, 2025.

How the one-more-night estimate is built

The detail behind: What is one more night per visitor worth?

Step	Value	Basis
Visitors, 2025	26.5M	Tourism Economics
Domestic / international share	93.2% / 6.8%	24.7M ÷ 26.5M
Average stay, domestic / international	1.9 / 5.9 days	Azira location data
Weighted average stay	2.17 days	93.2% × 1.9 + 6.8% × 5.9
Lodging spending, 2025	$1.72B	Tourism Economics (all accommodation types)
One more night of lodging	**$794M**	**$1.72B ÷ 2.17 days**
Total visitor spending, 2025	$6.83B	Tourism Economics
Spending per visitor-day	$118.71	$6.83B ÷ (26.5M × 2.17)
One more day, overnight visitors only	$1.02B	8.6M × spending per visitor-day
One more day, every visitor (upper bound)	$3.15B	$6.83B ÷ 2.17

HOW IT IS CALCULATED

Weighted average stay = **93.2%** domestic × **1.9 days** + **6.8%** international × **5.9 days** = **2.17 days** (Azira stays; Tourism Economics visitor mix). Spending per day = 2025 spending ÷ **2.17**. Spending per visitor-day = **$6.832B** ÷ (**26.5M** × **2.17**) = **$118.71**.

KEEP IN MIND

These are scenarios that hold spending per day constant; they are not forecasts. The study deck shows **$9.9B** for the total; the calculation gives **$9.98B**. A countywide version needs Orange County length of stay, which can be pulled from Azira at the next update.

Source: Visit Anaheim BI, Extra Night Calculation deck and TID Request workbook (2025 Tourism Economics and Azira inputs; recalculated Oct. 12, 2026).

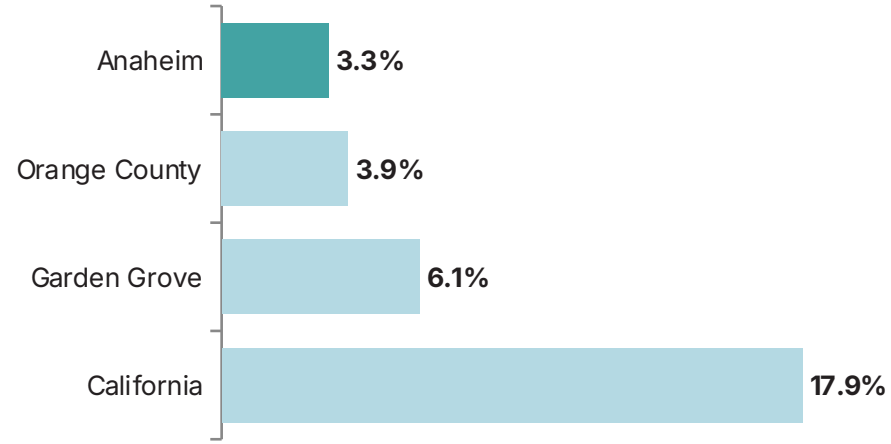

What is the economic impact of visitor transportation?

Transportation · Anaheim, Orange County and U.S.

Visitors spent **$224M** on transportation in Anaheim in 2025 (**3.3%** of spending), supporting **2,080 jobs** in transportation and gas stations. Countywide: **$707M** and **6,141 jobs**. Statewide, visitors spent **$25.2B** on local transportation, gas and air (**17.9%** of visitor spending).

Geography	Value	Detail
Anaheim	**$224M · 2,080 jobs**	**3.3% of spending; business sales $298M (other transport $159M + gas stations $139M); labor income $45M**
Garden Grove	$46.9M · 326 jobs	6.1% of spending; business sales $51.8M; labor income $7.0M
Orange County	$707M · 6,141 jobs	3.9% of spending; business sales $973M (other transport $496M + gas $349M + air $128M); labor income $143M
California	$25.2B · 73,100 jobs	Local transportation and gas $18.7B + visitor air $6.5B; direct jobs: ground 46,900 + air 26,200 (2025, preliminary)
U.S. costs	$3.10 vs. $4.09	Gasoline per gallon, U.S. vs. West Coast (2025); average domestic airfare $387

Visitor transportation spending, share of all visitor spending, 2025 (%)

HOW IT IS CALCULATED

Tourism Economics transportation = ride share, taxis, trains, rental cars, buses and gasoline bought locally, plus the local share of air travel where an airport exists. Jobs and sales add the 'other transport', 'gas stations' and 'air transport' rows (direct, indirect and induced) of each report's industry tables.

KEEP IN MIND

Shares differ because Visit California counts visitor air fares and statewide ground travel, while Anaheim (no commercial airport) counts spending inside the city. A dedicated Tourism Economics transportation impact analysis has been requested and will be added at the next quarterly update after it arrives.

Source: Tourism Economics, Economic Impact of Visitors 2025 (pub. Apr.–May 2026); Visit California, The Economic Impact of Travel in California, 2025 (preliminary) (Dean Runyan Associates, Apr. 6, 2026); U.S. Bureau of Transportation Statistics, Transportation Economic Trends. Economic impact of visitor transportation, 2025

The detail behind: What is the economic impact of visitor transportation?

Geography	Visitor transportation spending	Share of visitor spending	Business sales	Jobs	Labor income
Anaheim	**$224M**	**3.3%**	**$298M**	**2,080**	**$45M**
Garden Grove	$46.9M	6.1%	$51.8M	326	$7.0M
Orange County	$707M	3.9%	$973M	6,141	$143M
California (direct only)	$25.2B	17.9%	Not published	73,100	Not published

HOW IT IS CALCULATED

Tourism Economics transportation = ride share, taxis, trains, rental cars, buses and gasoline bought locally, plus the local share of air travel where an airport exists. Jobs and sales add the 'other transport', 'gas stations' and 'air transport' rows (direct, indirect and induced) of each report's industry tables.

KEEP IN MIND

Shares differ because Visit California counts visitor air fares and statewide ground travel, while Anaheim (no commercial airport) counts spending inside the city. A dedicated Tourism Economics transportation impact analysis has been requested and will be added at the next quarterly update after it arrives.

Source: Tourism Economics, Economic Impact of Visitors 2025 (pub. Apr.–May 2026) (industry tables: other transport, gas stations, air transport); Visit California, The Economic Impact of Travel in California, 2025 (preliminary) (Dean Runyan Associates, Apr. 6, 2026) (accessed Oct. 14, 2026).

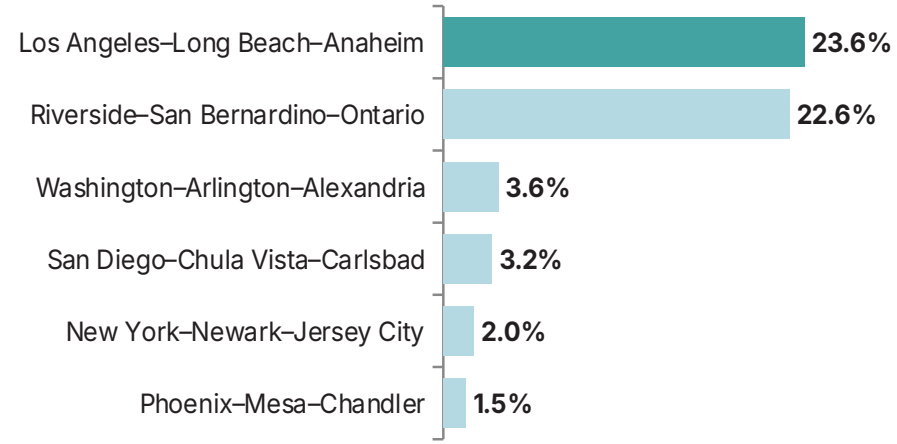

Who visits District 5, where OCVIBE is being built?

District 5 and who visits · Anaheim, Orange County and U.S.

85.8% of District 5 visitors stay overnight and **43.8%** are first-time visitors (Jan.–May 2026). Their median household income is **$85.7K**, above the **$79.9K** for all Anaheim and Garden Grove visitors and the **$85.4K** U.S. household median.

Geography	Value	Detail
District 5	**85.8% overnight**	**43.8% new · median income $85.7K · 56.0% from California · sample 1,003,735 devices**
Anaheim and Garden Grove	81.7% overnight	82.5% repeat · 1.3-day stay · median income $79.9K · 93.3% of trips from California
Orange County	$121.9K	Median household income of residents
U.S.	$85.4K	Median household income

Top origin metros for District 5 visitors (% of unique visitors)

HOW IT IS CALCULATED

Azira counts mobile devices seen in District 5. Overnight and new-visitor shares cover visitors who stayed 4+ hours, are not commuters and live 50+ miles away. Income is matched from U.S. Census data for home areas.

KEEP IN MIND

Location samples describe visitor mix; they are not visitor counts. Compare within Azira, not with Datafy or Visa.

Source: Azira via Symphony (Jan. 1–May 31, 2026); Azira via Symphony (Aug. 2026); Oxford Economics via CoStar (Oct. 12, 2026). Files in the app library: District 5 visitor profile (POI Analysis); Domestic visitors to Anaheim and Garden Grove; Orange County hospitality market report.

Where District 5 visitors come from

The detail behind: Who visits District 5, where OCVIBE is being built?

Metro area	Share
Los Angeles–Long Beach–Anaheim	**23.6%**
Riverside–San Bernardino–Ontario	22.6%
Washington–Arlington–Alexandria	3.6%
San Diego–Chula Vista–Carlsbad	3.2%
New York–Newark–Jersey City	2.0%
Bakersfield–Delano	1.5%
Phoenix–Mesa–Chandler	1.5%
Dallas–Fort Worth–Arlington	1.4%
Las Vegas–Henderson	1.2%
Chicago–Naperville–Elgin	1.2%
Oxnard–Thousand Oaks–Ventura	1.2%

HOW IT IS CALCULATED

Azira counts mobile devices seen in District 5. Overnight and new-visitor shares cover visitors who stayed 4+ hours, are not commuters and live 50+ miles away. Income is matched from U.S. Census data for home areas.

KEEP IN MIND

Location samples describe visitor mix; they are not visitor counts. Compare within Azira, not with Datafy or Visa.

Every question answered in this report

Find the slide or open the app: Questions answered

Topic	Question	Headline answer
OCVIBE requests	What has OCVIBE asked for, and where is each answered?	8 of 8 requests answered in this app
OCVIBE requests	What can OCVIBE share outside about Visit Anaheim's confidential data?	14 shareable summaries of confidential findings
Orange County tourism statistics	How many visitors come to Orange County, and how many stay overnight?	51.3M Orange County visitors, 2025
Orange County tourism statistics	Where do Orange County visitors come from?	55.4% of Orange County visitors from Southern California (latest county survey, 2019)
Orange County tourism statistics	When is Orange County busiest?	80.6% July hotel occupancy, 2023-2025 average
Orange County tourism statistics	Why do people visit Orange County, and who travels with them?	37.0% of Orange County visitors traveled with children (latest county survey, 2019)
Orange County tourism statistics	How many hotel rooms does Orange County have, and how full are they?	75.2% Orange County hotel occupancy, Jan.-Aug. 2026
Visitor spending	What does the average visitor spend?	$258 per Anaheim visitor, 2025
Visitor spending	Is visitor spending growing?	+7.8% Anaheim visitor spending, Q2 2026 vs. Q2 2025
Visitor spending	What did the latest quarterly Tourism Economics report (Q2 2026) show?	$1.76B Anaheim visitor spending, Q2 2026 (+7.8% vs. Q2 2025)
Visitor spending	Where do visitor dollars go?	34.0% of Anaheim visitor spending goes to recreation
Jobs and economy	How many jobs does the visitor economy support?	67,817 Anaheim jobs supported by visitors, 2025
Jobs and economy	What share of visitor-supported jobs are in food and beverage?	29.1% of Orange County visitor-supported jobs are in food and beverage
Jobs and economy	What is the total economic impact of visitors?	$10.4B Anaheim total economic impact, 2025
Jobs and economy	How much tax revenue do visitors generate?	$970M Anaheim state and local taxes from visitors, 2025
One more night	What is one more night per visitor worth?	$794M one more night of Anaheim lodging spending
One more night	What is each 1% of visitors staying a day longer worth?	$31.5M per 1% of Anaheim visitors adding a day
Transportation	What is the economic impact of visitor transportation?	2,080 Anaheim transportation and gas station jobs supported by visitors, 2025
Transportation	How do people get to the OCVIBE area?	275,000 vehicles a weekday on SR-57 beside OCVIBE
Transportation	What does it cost to travel here?	$4.09 West Coast gasoline per gallon, 2025
District 5 and who visits	Who visits District 5, where OCVIBE is being built?	85.8% of District 5 visitors stay overnight
District 5 and who visits	How much Anaheim visitor activity already includes the OCVIBE area?	5.2% of Anaheim visitor days included the OCVIBE area, 2024
District 5 and who visits	Which markets bring visitors and spending?	46.2% of District 5 visitors come from the Los Angeles and Riverside metros
District 5 and who visits	Does Visit Anaheim's marketing bring visitors?	368,416 observed visits after ad exposure, Jan.–Aug. 2026
Hotels and outlook	How are hotels performing?	78.4% Disneyland submarket hotel occupancy, 12 months to Aug. 2026

Anaheim welcomed 26.5 million visitors who spent $6.83 billion in 2025

News report · Anaheim and OCVIBE today · Tourism Economics: 2025 results (pub. 2026) and 2026 forecast (Sept. 2026) · Datafy 2024 · Azira Jan.–May 2026 · Contains confidential data (shareable summary in the dashboard)

THE LEDE

ANAHEIM, Calif. (Oct. 13, 2026): In 2025, **26.5M** visitors spent **$6.83B** in Anaheim, **$258** each (**$6.832B ÷ 26.5M**), and supported **67,817 jobs** (Tourism Economics, published 2026). Tourism Economics forecasts **27.0M** visitors and **$7.2B** for 2026, up **1.9%** and **5.6%** vs. 2025. These are City of Anaheim totals; they do not measure OCVIBE. For the OCVIBE area today, Datafy measured **5.2%** of Anaheim visitor days in 2024, and **85.8%** of District 5 visitors stay overnight (Azira, Jan.–May 2026).

WHY IT MATTERS

These are City of Anaheim totals, measured before OCVIBE's first venues open in 2027, so they set the baseline that OCVIBE's own results can be compared with later. Tourism Economics does not measure OCVIBE; the OCVIBE area's **5.2%** share of Anaheim visitor days comes from Datafy (calendar 2024).

What it means for OCVIBE: Anaheim and OCVIBE today

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

In 2025, **26.5M** visitors spent **$6.83B** in Anaheim, **$258** each (**$6.832B ÷ 26.5M**), and supported **67,817 jobs** (Tourism Economics, published 2026). Tourism Economics forecasts **27.0M** visitors and **$7.2B** for 2026, up **1.9%** and **5.6%** vs. 2025. These are City of Anaheim totals; they do not measure OCVIBE. For the OCVIBE area today, Datafy measured **5.2%** of Anaheim visitor days in 2024, and **85.8%** of District 5 visitors stay overnight (Azira, Jan.–May 2026).

WHAT IT ENHANCES

- Strategy: A measured baseline: **26.5M** visitors and **$6.83B** spending in 2025, with Tourism Economics forecasting **$7.2B** for 2026. [Calculation: **$6.832B** ÷ **26.5M** = **$258** per visitor (2025); **$7.2B** ÷ **27.0M** = **$267** (2026 forecast)]
- Measurement: The OCVIBE area already accounts for **5.2%** of Anaheim visitor days (2024), the starting point for measuring growth.
- Marketing: District 5 visitors are **85.8%** overnight and **43.8%** first-time, and **44%** of domestic visitors come from outside California. [Calculation: **100%** – **56.0%** from California = **44%**]
- Programming: Visitors spend most on recreation and entertainment (**34.0%**), then lodging (**25.2%**), retail (**21.9%**) and food and beverage (**15.6%**). [Calculation: Recreation **$2,321M**, lodging **$1,724M**, retail **$1,495M**, food and beverage **$1,067M** ÷ **$6,832M** total]

WHAT OCVIBE NEEDS

- Measurement: Ticket-buyer ZIP codes from the first 2027 shows, to measure how many attendees travel 50+ miles.
- Hotels: Occupancy, rate and guest origin from OCVIBE's hotels once open (first hotel 2028), reported monthly.
- Measurement: A confirmed concert hall capacity: **5,000 seats** (OCVIBE, Mar. 2026) vs. **5,613** (City of Anaheim, 2026).
- Strategy: One shared scorecard built on today's baselines (**5.2%** of visitor days, **2.17**-day average stay, **85.8%** overnight), refreshed quarterly with Visit Anaheim BI. [Calculation: **2.17 days** = **93.2%** domestic × **1.9 days** + **6.8%** international × **5.9 days** (Tourism Economics; Azira)]

Source: Tourism Economics, Economic Impact of Visitors (calendar 2025; pub. 2026); Tourism Economics, Anaheim Travel Forecast (Sept. 2026); Datafy Anaheim visitor report (calendar 2024); Azira via Symphony (District 5, Jan. 1–May 31, 2026; domestic visitors, Aug. 2026); Orange County Business Journal (June 1, 2026); OCVIBE concert hall release, PR Newswire (Mar. 12, 2026); City of Anaheim OCVIBE page (2026); OCVIBE fact sheet (Apr. 2024)

Orange County draws 51.3 million visitors a year; hotels fill 75% of rooms in 2026

News report · Orange County tourism · CIC Research 2009-2019; Tourism Economics 2021-2025; CoStar through Sept. 2026; Azira Jan. 2023-Aug. 2026 · Contains confidential data (shareable summary in the dashboard)

THE LEDE

ANAHEIM, Calif. (Oct. 19, 2026): Orange County drew **51.3M** visitors in 2025, **29.2M** for the day and **22.1M** overnight, and **93.3%** came from within the U.S. (Tourism Economics). Most come for leisure: the latest county visitor survey (CIC Research, 2019) found **81.2%** traveled for pleasure or to see friends and relatives, in parties of **2.8**, and **37.0%** brought children (CIC Research). Hotels filled **75.2%** of **60,224 rooms** at **$221.67** in Jan.-Aug. 2026, with July the busiest month (CoStar).

WHY IT MATTERS

Entertainment + Culture Advisors asked five questions for OCVIBE's market study. The answers come from five sources with different methods: Tourism Economics for current visitor volume (**51.3M** in 2025), CIC Research for the 2019 baseline used in comparisons and the latest county visitor profile, Azira for origins, and CoStar for hotel rooms and seasonality. Gaps are named with their solutions.

OCVIBE's requests and where each is answered

Analysis · OCVIBE follow-up (Oct. 9, 2026) and ECA for OCVIBE (Oct. 19, 2026) · status as of Oct. 19, 2026

Request	Asked	Status	Answer in brief	Where in this app
Q2 2026 Tourism Economics report	Oct. 9	Answered	Anaheim Q2 2026 vs. Q2 2025: 6.74M visitors (+2.8%), $1.76B spending (+7.8%); Garden Grove 831,000 visitors, $200.4M.	Visitor spending; Questions answered; library (Travel Forecast, Sept. 2026)
Anaheim, Garden Grove and Orange County reports with food and beverage job share	Oct. 9	Answered	Food and beverage share of visitor-supported jobs: Anaheim 16.8%, Garden Grove 40.6%, Orange County 29.1% (2025).	Jobs and economy; library (six Tourism Economics 2025 reports)
One more night study	Oct. 9	Answered	One more night of Anaheim lodging spending: about $794M; each 1% of visitors adding a day: about $31.5M.	One more night; library (study and workbook)
Orange County arrivals, origins, seasonality, visitor profile and hotels (five questions)	Oct. 19	Answered, with named gaps	51.3M visitors (2025); 55.4% from Southern California (latest county survey, 2019); July peak; 37.0% with children (latest county survey, 2019); 60,224 rooms at 75.2% (2026 YTD).	Orange County tourism; library (CIC 2019 and 11 new files)

Source: Tourism Economics, Anaheim and Garden Grove Travel Forecast (Sept. 2026); Tourism Economics, Economic Impact of Visitors 2025 (pub. Apr.-May 2026); Visit Anaheim BI, Extra Night study; CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020); CoStar, Orange County hotel market (monthly data through Sept. 2026; market report Oct. 12, 2026)

The five questions and where each is answered

Analysis · Sent by Entertainment + Culture Advisors for OCVIBE, Oct. 19, 2026 · every gap paired with a solution

Question	What was asked	Answer in brief	Main source	Gap and solution
1. Visitor arrivals	How many visitors came to Orange County each year from 2019 to 2025, and so far in 2026, split by domestic and international and by overnight and day?	51.3M in 2025 (29.2M day, 22.1M overnight; 47.9M domestic, 3.5M international), compared with the 2019 baseline of 50.21M (CIC, a different method); Anaheim Jan.-June 2026 13.06M (+3.1%).	Tourism Economics 2025; CIC 2019; Tourism Economics Sept. 2026	County 2020 and 2026 YTD not published; request them from Tourism Economics.
2. Origin markets	Where do visitors come from, and can the Los Angeles-Long Beach-Anaheim area be split into Anaheim and outside Anaheim?	55.4% Southern California (latest county survey, 2019); 44.7% of Anaheim and Garden Grove domestic trips from the Los Angeles-Long Beach-Anaheim metro (2023-2026).	CIC 2019; Azira	No ZIP codes in Azira, so no Anaheim vs. outside-Anaheim split; a custom pull or survey would provide it.
3. Seasonality	How does visitation change month by month?	Hotel occupancy peaks in July (80.6%) and is lowest in January (61.2%), 2023-2025 average.	CoStar monthly	No monthly county visitor counts; hotel occupancy is the monthly measure.
4. Visitor profile	What is the purpose of the trip, how long do visitors stay, how large is the travel party and how many travel with children?	81.2% leisure, 9.6% business, 7.6% special events; party of 2.8; 37.0% with children; overnight stay 4.2 nights (latest county survey, 2019).	CIC 2019; Azira	Latest county profile is 2019; a new survey would update it.
5. Hotels	How many hotel rooms does Orange County have, and what are occupancy and average daily rate?	60,224 rooms (Sept. 2026); 75.2% occupancy, $221.67 ADR (Jan.-Aug. 2026).	CoStar	None.

Source: Tourism Economics, Economic Impact of Visitors to Orange County, 2025 (pub. May 2026); CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020); CoStar, Orange County hotel market (monthly data through Sept. 2026; market report Oct. 12, 2026); Symphony | Tourism Economics (Azira), Anaheim and Garden Grove, Jan. 1, 2023-Aug. 31, 2026 (pulled Oct. 19, 2026)

Question 1. Visitor arrivals to Orange County, 2009–2026

Analysis · Millions · 2025 (latest, Tourism Economics) compared with the 2019 baseline (CIC Research) · separate methods

Year	Total visitors	Day	Overnight	International	Source
2015	47.4M	26.3M	21.1M	Not published	CIC Research
2016	48.2M	26.8M	21.4M	Not published	CIC Research

2026 YTD	Not published	Not published	Not published	Not published	Anaheim only: 13.06M visitors Jan.-June 2026 (+3.1% vs. Jan.-June 2025), Tourism Economics

Source: CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020) (Figure 1, Table 3); Tourism Economics, Economic Impact of Visitors to Orange County, 2025 (pub. May 2026); Dean Runyan Associates for Visit California, The Economic Impact of Travel in California, 2025 (preliminary) (Apr. 2026), Orange County detail; Tourism Economics, Anaheim and Garden Grove Travel Forecast (Sept. 2026). 2009–2014 in the dashboard.

Question 1. Orange County visitor spending, including 2020

Analysis · Dean Runyan Associates for Visit California · $ millions · spending, not visitor counts

Year	Visitor spending	Day travel	Day travel share	Change vs. 2019 baseline
2019	$12,673.3	$1,974.9	15.6%	▶ +0.0%
2020	$5,919.6	$599.8	10.1%	▼ -53.3%
2021	$9,572.1	$1,075.6	11.2%	▼ -24.5%
2022	$13,425.7	$1,645.7	12.3%	▲ +5.9%
2023	$14,174.1	$1,714.4	12.1%	▲ +11.8%
2024	$14,899.1	$1,802.6	12.1%	▲ +17.6%
2025 (preliminary)	**$15,394.2**	**$1,861.7**	**12.1%**	**▲ +21.5%**

Orange County visitor spending in 2025 (preliminary) was **21.5%** above the 2019 baseline (**$15.39B** vs. **$12.67B**). Compared with the 2019 baseline, spending fell to **46.7%** in 2020 and passed it in 2022. Tourism Economics and CIC do not publish 2020 county visitor counts; this series fills the year.

Source: Dean Runyan Associates for Visit California, The Economic Impact of Travel in California, 2025 (preliminary) (Apr. 2026), Orange County detail, p. 67

Question 2. Where visitors come from

Analysis · Orange County, latest county survey (2019, CIC) · Anaheim and Garden Grove, Jan. 2023–Aug. 2026 (Azira) · LA metro includes Orange County

Orange County origin (latest county survey, 2019)	Share	Anaheim and Garden Grove origin metro	Share
Southern California (all)	**55.4%**	**Los Angeles-Long Beach-Anaheim (includes Orange County)**	**44.7%**
Los Angeles metro	26%	Riverside-San Bernardino-Ontario	26.1%
Riverside/San Bernardino	19%	San Diego-Chula Vista-Carlsbad	4.1%
San Diego	6%	Phoenix	2.3%
San Francisco	3%	Las Vegas	1.9%
Phoenix	Slightly under 3%	San Francisco-Oakland	1.3%
Northern California	8%		
Other western states	15%		
Rest of the U.S.	Almost 13%		
International	9.1% (4.6M)		

International market	Visitors, 2025	Home TV market (DMA)	Share of domestic trips
Mexico	**766K**	**Los Angeles**	**55.6%**
Canada	254K	Palm Springs	16.3%
United Kingdom	123K	San Diego	4.1%
Australia	104K	Phoenix	3.0%
New Zealand	27K		
Rest of world	865K		

No ZIP codes in Azira: the metro area cannot be split into Anaheim and outside Anaheim. Solution: a custom Symphony pull or a new visitor survey.

Source: CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020); Symphony | Tourism Economics (Azira), Anaheim and Garden Grove, Jan. 1, 2023-Aug. 31, 2026 (pulled Oct. 19, 2026); Tourism Economics, Anaheim and Garden Grove Travel Forecast (Sept. 2026); Symphony | Tourism Economics (Azira), Anaheim and Garden Grove, Jan. 1, 2023-Aug. 31, 2026 (pulled Oct. 19, 2026). Orange County international leaders (latest county survey, 2019): Mexico 848K, Canada 786K (CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020)).

Question 3. Seasonality: Orange County hotel occupancy by month

Analysis · CoStar, % of rooms sold · no monthly county visitor counts are published, so hotel occupancy is the measure

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
2019	67.7	75.6	82.0	77.7	74.6	81.2	86.2	80.9	75.3	81.4	74.1	72.1
2022	51.1	63.4	71.7	73.1	69.2	77.2	80.2	70.4	75.8	77.3	67.4	65.9
2023	58.4	69.1	74.8	73.7	71.1	76.2	80.7	70.7	73.7	74.6	68.2	68.3
2024	61.7	68.2	72.1	70.0	68.7	77.0	80.0	73.6	77.2	73.8	70.0	68.0
2025	63.6	69.8	74.9	70.9	70.6	75.9	81.2	74.9	69.9	76.9	69.3	70.4
2026	65.5	75.1	78.5	75.1	72.0	77.8	82.6	75.5	75.5			
2023-25 avg.	**61.2**	**69.0**	**73.9**	**71.5**	**70.1**	**76.4**	**80.6**	**73.1**	**73.6**	**75.1**	**69.2**	**68.9**

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
2019	$154	$157	$169	$159	$156	$170	$189	$179	$157	$168	$159	$159
2025	$192	$201	$214	$198	$197	$210	$233	$215	$208	$225	$202	$208

2023-25 avg.	**$190**	**$201**	**$215**	**$203**	**$200**	**$212**	**$231**	**$214**	**$211**	**$218**	**$203**	**$206**

Source: CoStar, Orange County hotel market (monthly data through Sept. 2026; market report Oct. 12, 2026). Lower table: average daily rate. 2020–2021 in the dashboard.

Question 4. Visitor profile: purpose, party size, children and stay

Analysis · CIC Research, Orange County visitors by type of stay · latest county survey (2019); no newer survey published

Measure	Hotel guests	Private home	All overnight	Day visitors	All visitors
Purpose: pleasure or visiting friends and relatives	63.6%	94.7%	76.4%	84.8%	81.2%
Purpose: business or convention	29.0%	3.5%	18.5%	2.8%	9.6%
Purpose: special events	6.1%	0.2%	3.8%	10.5%	7.6%
Mean travel party size (people)	2.6	2.4	2.6	2.9	2.8
Children in the travel group	28.7%	35.9%	31.8%	41.5%	37.0%
Mean nights stayed in Orange County	3.8	4.7	4.2	0	1.8
Median age of visitors (years)	41	38	41	30	34
Arrived by air	51.0%	50.3%	50.5%	7.6%	24.8%
Spending per visitor in Orange County	$670	$303	$555	$54	$268
Median household income	$121,900	$83,900	$110,100	$78,100	$89,500
Southern California resident	12.5%	17.3%	13.8%	84.7%	55.4%
International visitor	22.4%	9.9%	18.5%	4.1%	9.1%
First-time visitor	17.7%	12.5%	16.1%	5.3%	9.9%
Visitor volume	12.40M	7.12M	21.48M	28.73M	50.21M

Source: CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020), Table 3

Question 4. More recent visitor indicators

Analysis · Each row names its geography and period · none is a full Orange County profile

Measure	Value	Geography and period	Source
Anaheim visitors with children	42.0%	Anaheim, latest survey (2019); hotel leisure groups 62.6%	CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020)
Anaheim travel party	3.0 people	Anaheim, latest survey (2019); hotel leisure groups 3.6	CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020)
Average length of stay, domestic	1.28-1.46 days	Anaheim and Garden Grove, by month, Jan.-Aug. 2026	Symphony | Tourism Economics (Azira), Anaheim and Garden Grove, Jan. 1, 2023-Aug. 31, 2026 (pulled Oct. 19, 2026)
Average length of stay, international	4.99 days	Anaheim and Garden Grove, Jan. 2023-Aug. 2026	Symphony | Tourism Economics (Azira), Anaheim and Garden Grove, Jan. 1, 2023-Aug. 31, 2026 (pulled Oct. 19, 2026)
Visitor median household income	$92.5K	Anaheim and Garden Grove domestic visitors, Jan. 2023-Aug. 2026	Symphony | Tourism Economics (Azira), Anaheim and Garden Grove, Jan. 1, 2023-Aug. 31, 2026 (pulled Oct. 19, 2026)
Hotel demand by segment	Transient 59.5%, group 13.3%, contract 1.2%	Orange County hotels, 12 months to Aug. 2026 (occupancy points)	CoStar, Orange County hotel segmentation (12 months to Aug. 2026)
Trip purpose, domestic visits	Leisure 214.2M, business 40.8M	California, 2025	Tourism Economics for Visit California, California Travel Forecast data (Sept. 2026)

Source: CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020); Symphony | Tourism Economics (Azira), Anaheim and Garden Grove, Jan. 1, 2023-Aug. 31, 2026 (pulled Oct. 19, 2026); CoStar, Orange County hotel segmentation (12 months to Aug. 2026); Tourism Economics for Visit California, California Travel Forecast data (Sept. 2026)

Question 5. Orange County hotel inventory, occupancy and ADR

Analysis · CoStar · 2026 is Jan.–Aug. · revenue per available room = occupancy x ADR

Year	Rooms available a night (avg.)	Year-end inventory	Occupancy	ADR	Revenue per available room
2019	58,633	59,172	77.4%	$165.36	$127.99
2020	50,674	60,580	44.0%	$135.76	$59.73
2021	56,940	61,354	57.1%	$169.58	$96.83
2022	59,997	60,858	70.2%	$202.31	$142.02
2023	60,005	60,689	71.6%	$211.11	$151.15
2024	60,353	60,932	71.7%	$207.75	$148.96
2025	60,547	60,550	72.3%	$209.68	$151.60
2026 YTD	**60,219**	**60,224**	**75.2%**	**$221.67**	**$166.70**
2026 forecast	n/a	n/a	75.9%	$221.61	$168.20

Source: CoStar, Orange County hotel market (monthly data through Sept. 2026; market report Oct. 12, 2026); 2026 forecast: Tourism Economics for Visit California, State and Regional Lodging Forecast (Sept. 2026; CoStar data)

Compare and contrast: how the visitor sources differ

Analysis · Why figures differ by source, and which to use

Source	Measures	Years	Geography	Method	Use it for
CIC Research	Visitors, profile, spending	2009-2019	Orange County; Anaheim	Intercept survey, household panel, hotel data	2019 baseline for comparisons; latest county visitor profile
Tourism Economics	Visitors, spending, jobs, taxes	2021-2025 (county); 2019-2028 (Anaheim)	Orange County; Anaheim; Garden Grove	Economic model from spending, lodging and survey data	Current visitor volume
Dean Runyan Associates	Spending, jobs, taxes	2015-2025 (preliminary)	California counties	Economic model for Visit California	2019-2025 trend including 2020
Azira (Symphony)	Trips, origins, length of stay	Jan. 2023-Aug. 2026	Anaheim and Garden Grove	Mobile location data	Origins and recent behavior
CoStar	Hotel rooms, occupancy, ADR	1987-Sept. 2026	Orange County market	Hotel census and sample	Hotel capacity and seasonality

What it means for OCVIBE: Orange County tourism

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

Orange County drew **51.3M** visitors in 2025, **29.2M** for the day and **22.1M** overnight, and **93.3%** came from within the U.S. (Tourism Economics). Most come for leisure: the latest county visitor survey (CIC Research, 2019) found **81.2%** traveled for pleasure or to see friends and relatives, in parties of **2.8**, and **37.0%** brought children (CIC Research). Hotels filled **75.2%** of **60,224 rooms** at **$221.67** in Jan.-Aug. 2026, with July the busiest month (CoStar).

WHAT IT ENHANCES

- Strategy: A sized market: **51.3M** county visitors and **22.1M** overnight visitors a year (2025).
- Programming: Family and leisure audiences dominate: **81.2%** leisure, **37.0%** with children, parties of **2.8** (latest county survey, 2019).
- Hotels: **60,224** county hotel rooms at **75.2%** occupancy (2026 YTD); January, December and February have the most room.

WHAT OCVIBE NEEDS

- Measurement: A current Orange County visitor survey (purpose, party size, children, origins by ZIP) to replace the 2019 survey, the latest available.
- Measurement: Tourism Economics county estimates for 2019-2020 and 2026 year to date (to be requested from Tourism Economics).

Source: Tourism Economics, Economic Impact of Visitors to Orange County, 2025 (pub. May 2026); CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020); CoStar, Orange County hotel market (monthly data through Sept. 2026; market report Oct. 12, 2026)

Most District 5 visitors stay overnight, and 44% are new

News report · Who visits · Symphony (Azira) Jan.–May 2026 · Datafy calendar 2024 · Contains confidential data (shareable summary in the dashboard)

THE LEDE

ANAHEIM, Calif. (Oct. 13, 2026): 85.8% of District 5 visitors stay overnight and **43.8%** are first-time visitors. The OCVIBE area already accounts for **5.2%** of Anaheim visitor days.

WHY IT MATTERS

Knowing who already visits shows OCVIBE where its audience comes from. Most District 5 visitors stay overnight and many are first-time visitors, and the OCVIBE area already appears in **5.2%** of Anaheim visitor days.

What it means for OCVIBE: Who visits

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

85.8% of District 5 visitors stay overnight and **43.8%** are first-time visitors. The OCVIBE area already accounts for **5.2%** of Anaheim visitor days.

WHAT IT ENHANCES

- Measurement: A baseline before opening: the OCVIBE area already accounts for **5.2%** of Anaheim visitor days (2024).
- Marketing: New money: **44%** of District 5 domestic visitors come from outside California; fly-in markets include Seattle, Phoenix, Las Vegas, Orlando and New York, and Mexico (**$5.2M**) and Canada (**$3.2M**) lead international card spending. [Calculation: **100%** – **56.0%** from California = **44%** from other states]
- Programming: Visits are spread across the week (Saturday **15.9%**, Tuesday **13.3%**), so weekday programming has an audience.
- Hotels: **13.7%** of District 5 visitors also go to the Anaheim Resort, a direct path to packages and longer stays.

WHAT OCVIBE NEEDS

- Measurement: Ticketing and loyalty data by origin, to track the out-of-state share.
- Programming: Dining offers for international guests: international restaurant spending fell **19.1%** in August 2026 vs. August 2025.
- Measurement: Trends compared within each source (Azira, Datafy, Visa), since they count visitors differently.

Source: Azira via Symphony (District 5, Jan. 1–May 31, 2026; domestic visitors, Aug. 2026); Datafy Anaheim visitor report (calendar 2024); Visa Destination Insights via Symphony (Aug. 2026 vs. Aug. 2025)

Anaheim visitors spent $1.76 billion in the second quarter, up 7.8% from a year earlier

News report · Visitor spending · Tourism Economics Travel Forecast, Sept. 2026 · Q2 2026 actual

THE LEDE

ANAHEIM, Calif. (Oct. 13, 2026): Each Anaheim visitor spent about **$258** in 2025 (**$6.83B** visitor spending ÷ **26.5M** visitors), and Tourism Economics forecasts **$279** by 2028. Visitors spent **$1.76B** in Q2 2026, up **7.8%** from Q2 2025.

WHY IT MATTERS

Spending per visitor sets the value of each visitor OCVIBE draws. Tourism Economics reports **$258** per visitor in 2025 (**$6.832B** ÷ **26.5M**) and forecasts **$279** by 2028, and Visa shows visitor card spending up **8.1%** in August 2026 vs. August 2025.

What it means for OCVIBE: Visitor spending

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

Each Anaheim visitor spent about **$258** in 2025 (**$6.83B** visitor spending ÷ **26.5M** visitors), and Tourism Economics forecasts **$279** by 2028. Visitors spent **$1.76B** in Q2 2026, up **7.8%** from Q2 2025.

WHAT IT ENHANCES

- Programming: Visitor spending grows faster than visits (**+4.1%** vs. **+1.4%** a year to 2028), so premium seating, dining and packages add more value than attendance alone. [Calculation: Visitor spending **$6.83B** (2025) → **$7.7B** (2028 forecast) = **+4.1%** a year; visits **26.5M** → **27.6M** = **+1.4%** a year; per visitor **$258** → **$279** = **+2.6%** a year]
- Marketing: Visitor card spending reached **$464.6M** in August 2026 (**+8.1%** vs. August 2025), and spending per card rose **4.7% to $85**.

WHAT OCVIBE NEEDS

- Programming: Dining, event and package pricing built for visitors as well as locals; the average visitor card transaction was **$43** in August 2026.
- Measurement: Card spending mapped to the OCVIBE area, to separate OCVIBE's spending from the citywide total.
- Measurement: Visits and spending per visitor tracked together, so price increases are not mistaken for growth.

Visitors supported 67,817 Anaheim jobs in 2025, one in three

News report · Jobs and economy · Calendar 2025 vs. 2024 · Tourism Economics regional reports

THE LEDE

ANAHEIM, Calif. (Oct. 13, 2026): Visitors supported **67,817** Anaheim jobs in 2025, about one in three, and **178,164** countywide. Food and beverage holds **16.8%** of those jobs in Anaheim and **29.1%** countywide.

WHY IT MATTERS

Visitor spending reaches well beyond hotels and attractions. Tourism Economics counts direct, indirect and induced effects, which together support about one in three Anaheim jobs; these published ratios link visitor spending to jobs and tax revenue.

What it means for OCVIBE: Jobs and economy

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

Visitors supported **67,817** Anaheim jobs in 2025, about one in three, and **178,164** countywide. Food and beverage holds **16.8%** of those jobs in Anaheim and **29.1%** countywide.

WHAT IT ENHANCES

- Community: Each **$1M** of visitor spending in Anaheim supports about **9.9 jobs** and about **$142,000** in state and local taxes (2025). [Calculation: **67,817 jobs** ÷ **$6,832M** = **9.9** per **$1M**; **$970M** ÷ **$6,832M** = **14.2%**]
- Programming: Food and beverage was the fastest-growing visitor spending category in 2025 (**+5.5%** vs. 2024), and OCVIBE plans 35+ restaurants (**171,544** sq ft).
- Community: Visitors saved each Anaheim household about **$8,940** in taxes in 2025, a community benefit OCVIBE's visitors add to.

WHAT OCVIBE NEEDS

- Operations: A hiring plan for the 2027 openings, with labor costs rising about **6%** a year.
- Measurement: OCVIBE's sales by category once venues open, to replace citywide ratios with its own mix.
- Community: Local hiring and wage figures, to report OCVIBE's jobs benefit directly.

Resort-area hotels fill 78% of rooms while new supply stays scarce

News report · Hotel market · CoStar, data through Aug. 2026 · Contains confidential data (shareable summary in the dashboard)

THE LEDE

ANAHEIM, Calif. (Oct. 13, 2026): Demand is strong and new supply is scarce: Disneyland submarket hotels filled **78.4%** of rooms at **$255** a night, and only **668 rooms** are under construction countywide. Weeknights have the most room: Visit Anaheim hotels ran **70.6%** full on Sunday–Monday nights vs. **86.2%** on Friday–Saturday, a **15.7**-point gap (averages of the two nights each).

WHY IT MATTERS

OCVIBE plans 550 hotel rooms in a market with strong demand and little new supply. CoStar reports **78.4%** occupancy in the Disneyland submarket and only **668 rooms** under construction countywide, and STR shows the most open rooms on Sunday and Monday nights.

What it means for OCVIBE: Hotel market

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

Demand is strong and new supply is scarce: Disneyland submarket hotels filled **78.4%** of rooms at **$255** a night, and only **668 rooms** are under construction countywide. Weeknights have the most room: Visit Anaheim hotels ran **70.6%** full on Sunday–Monday nights vs. **86.2%** on Friday–Saturday, a **15.7**-point gap (averages of the two nights each).

WHAT IT ENHANCES

- Hotels: OCVIBE plans **550 rooms** in two hotels, while only **668 rooms** are under construction across Orange County.
- Events: Open weeknights for events: Jan., May, Aug. and Sept. weeknights ran **64%–74%** full in 2026, while July had **10 nights** at **90%**+. [Calculation: Weeknight occupancy = Sunday–Thursday room nights sold ÷ rooms available, by month (STR daily data); nights at **90%**+ counted from daily occupancy]
- Programming: Food and beverage is **29.4%** of Orange County hotel revenue, and food revenue per room rose **28.9%** vs. the prior 12 months.

WHAT OCVIBE NEEDS

- Hotels: A rate position between the Anaheim submarket (**$130**) and the Disneyland submarket (**$255**), set by night of week.
- Events: Group blocks timed to convention season: groups took **25.0%** of rooms in Feb. and **22.2%** in Mar. 2026. [Calculation: Group share = group room nights ÷ all room nights sold, by month (STR daily data)]
- Measurement: Monthly occupancy and rate from OCVIBE's hotels once open, to compare with STR and CoStar.

Source: CoStar reports and export (data through Aug. 2026; pulled Oct. 12, 2026); STR daily data, Visit Anaheim hotel sets (Jan. 1–Oct. 3, 2026); City of Anaheim OCVIBE page (2026); OCVIBE fact sheet (Apr. 2024)

One more night per visitor is worth about $794 million in lodging

News report · One more night · Scenario based on 2025 visitors, spending and length of stay · Contains confidential data (shareable summary in the dashboard)

THE LEDE

ANAHEIM, Calif. (Oct. 13, 2026): If every Anaheim visitor stayed one more night, lodging spending would rise about **$794M** (**$1.724B** 2025 lodging spending ÷ **2.17**-day average stay; Visit Anaheim Extra Night study). Each **1%** of Anaheim visitors who stay one more day adds about **$31.5M** in visitor spending (**26.5M** visitors × **1%** × **$118.71** per visitor day).

WHY IT MATTERS

Longer stays raise spending without adding visitors. The Visit Anaheim Extra Night study values one more night per visitor at about **$794 million** in lodging (**$1.724B ÷ 2.17 days**), holding spending per day constant.

BY THE NUMBERS

Added spending by scenario ($ billions, estimates)

Why it matters for OCVIBE: evening events at Honda Center and the new concert hall, plus 550 planned hotel rooms, are the draws that turn day trips into overnight stays.

Step	Value	Basis
Visitors, 2025	26.5M	Tourism Economics
Domestic / international share	93.2% / 6.8%	24.7M ÷ 26.5M
Average stay, domestic / international	1.9 / 5.9 days	Azira location data
Weighted average stay	2.17 days	93.2% × 1.9 + 6.8% × 5.9
Lodging spending, 2025	$1.72B	Tourism Economics (all accommodation types)
One more night of lodging	**$794M**	**$1.72B ÷ 2.17 days**
Total visitor spending, 2025	$6.83B	Tourism Economics
Spending per visitor-day	$118.71	$6.83B ÷ (26.5M × 2.17)
One more day, overnight visitors only	$1.02B	8.6M × spending per visitor-day
One more day, every visitor (upper bound)	$3.15B	$6.83B ÷ 2.17

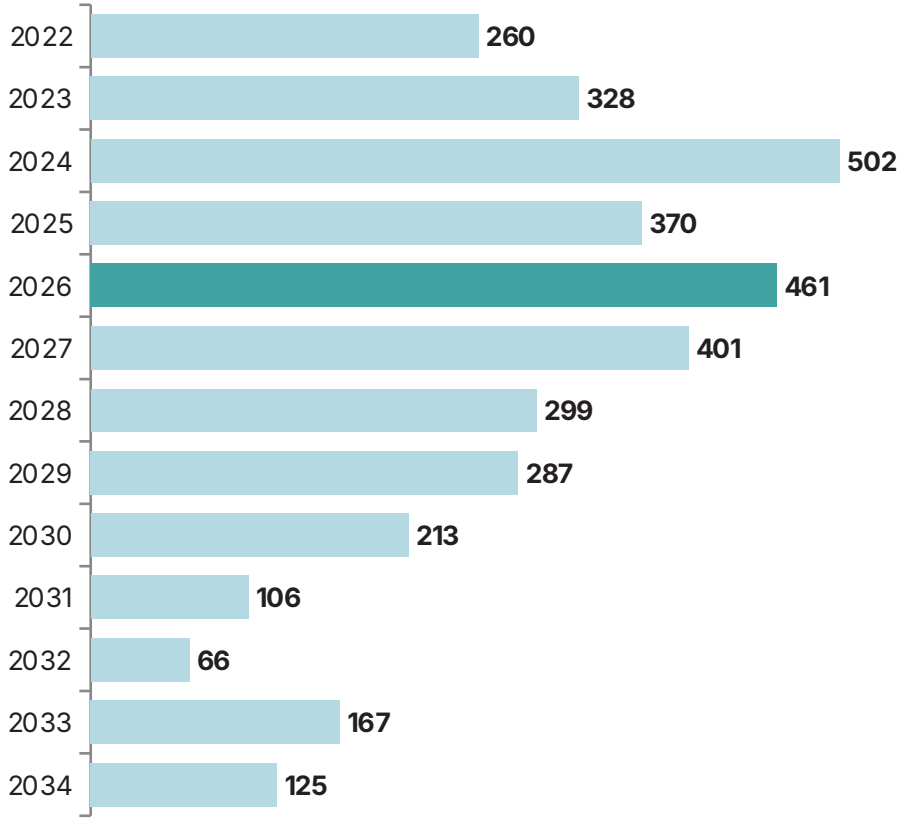

Source: Visit Anaheim BI, Extra Night study (Tourism Economics 2025 spending; Azira length of stay). Estimates hold spending per day constant.

What it means for OCVIBE: One more night

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

If every Anaheim visitor stayed one more night, lodging spending would rise about **$794M** (**$1.724B** 2025 lodging spending ÷ **2.17**-day average stay; Visit Anaheim Extra Night study). Each **1%** of Anaheim visitors who stay one more day adds about **$31.5M** in visitor spending (**26.5M** visitors × **1%** × **$118.71** per visitor day).

WHAT IT ENHANCES

- Hotels: Two in three Anaheim visitors (**67.5%**) are day visitors; evening shows and 550 planned hotel rooms are what turn a day trip into an overnight stay. [Calculation: **17.9M** day visitors ÷ **26.5M** visitors = **67.5%**]
- Events: Each point of Sunday–Monday hotel occupancy citywide is about **22,200 room nights** and **$5.1M** in room revenue a year. [Calculation: **21,318 rooms** × 1 point × 104 Sunday and Monday nights a year = **22,171 room nights**; × **$229.90** average Sunday–Monday rate = **$5.1M**]
- Events: Groups booked with Tourism Improvement District incentives (as of Jan. 2025): 30 events and **460,566 room nights** in 2026, 26 events in 2027.

WHAT OCVIBE NEEDS

- Hotels: Show-and-stay packages with nearby hotels for 2027, since OCVIBE's own hotels open in 2028.
- Measurement: Package redemptions (nights added) shared with Visit Anaheim, to measure the add-a-day share.
- Strategy: Planning values in **1%** steps (**$15.7M** at **0.5%**, **$31.5M** at **1%**, **$62.9M** at **2%**) rather than the **$3.15B** ceiling. [Calculation: **0.5%** × **26.5M** × **$118.71** = **$15.7M**; **1%** = **$31.5M**; **2%** = **$62.9M**]

275,000 vehicles a day pass OCVIBE on SR-57

News report · Getting here · OCTA traffic map Aug. 2026 · OCTA bus schedules Aug.–Nov. 2026 · Azira Aug. 2026 · Contains confidential data (shareable summary in the dashboard)

THE LEDE

ANAHEIM, Calif. (Oct. 13, 2026): Most visitors arrive by car: **74.0%** of domestic trips start within 50 miles, and SR-57 beside OCVIBE carries about **275,000 vehicles** a weekday. ARTIC adds 277 weekday bus trips (routes 50, 53 and 553: 100 + 102 + 75), Amtrak and Metrolink.

WHY IT MATTERS

Access decides how many visitors OCVIBE can host on peak nights. Most visitors arrive by car, and SR-57 beside OCVIBE carries about **275,000 vehicles** a day; ARTIC adds bus and rail service, though only 11 weekday buses leave after 10 p.m.

Transit ridership fell 38% from 2007 to 2017 while the bus fleet grew

Analysis · Orange County transit passengers and vehicles · all operators · data ends in 2017

Year	Passengers, all	Bus	Demand response	OCTA vehicles	All vehicles	Expenses per passenger
2017	**43.8M**	**40.9M**	**1.61M**	**1,066**	**1,577**	**$7.00**
2016	47.2M	44.2M	1.79M	1,078	1,953	$6.66
2015	50.9M	47.9M	1.71M	1,014	1,603	$5.80
2014	52.4M	49.5M	1.65M	1,060	1,591	$5.64
2013	54.3M	51.4M	1.63M	1,087	1,646	$5.34
2012	55.8M	53.1M	1.57M	961	1,503	$5.03
2011	54.3M	51.9M	1.52M	926	1,477	$4.93
2010	56.3M	54.0M	2.33M	876	1,481	$5.07
2009	67.2M	64.9M	1.46M	953	1,473	$4.43
2008	67.5M	65.7M	1.42M	773	1,157	$4.26
2007	70.7M	69.5M	1.23M	648	911	$3.85
2006	69.5M	68.0M	1.21M	652	966	$3.72
2005	68.9M	67.4M	1.20M	648	996	$3.59
2004	69.0M	67.6M	1.08M	642	938	$3.26
2003	66.4M	65.2M	0.91M	615	923	$3.28

Orange County transit ridership peaked at **70.7M** passengers in 2007 and fell to **43.8M** by 2017 (**-38%**), while OCTA's vehicle fleet grew from **615 to 1,066**. Expenses per passenger rose from **$3.28 to $7.00**. For OCVIBE this means most guests will drive, and that buses have spare seats outside peak hours. Solution: pair event-night service requests with ticket-and-transit promotions so added buses fill.

Source: California's transit systems data snapshots, Orange County: Transit Operating Statistics (employees, passengers, vehicles) and Transit Financial Data (revenues and expenses), 2003–2017; downloaded Oct. 12, 2026. Expenses per passenger is a BI calculation.

Orange County transit: fewer staff and rising costs, 2003–2017

Analysis · OCTA, OCTA specialized service and Laguna Beach · nominal dollars · data ends in 2017

Year	OCTA staff	OCTA expenses	Specialized service staff	Specialized service expenses	All operators, staff	All operators, expenses
2017	**1,526**	**$227.9M**	**618**	**$75.1M**	**2,176**	**$306.1M**
2015	1,486	$222.0M	633	$70.3M	2,244	$295.3M
2013	1,606	$233.4M	586	$54.1M	2,208	$289.7M
2011	1,567	$216.9M	528	$48.5M	2,199	$267.8M
2010	1,585	$237.5M	822	$45.8M	2,489	$285.6M
2009	2,235	$257.6M	647	$37.4M	2,976	$297.4M
2007	1,854	$238.1M	577	$32.5M	2,511	$272.1M
2005	1,929	$213.6M	627	$32.3M	2,572	$247.3M
2003	1,786	$193.4M	674	$23.0M	2,474	$217.6M

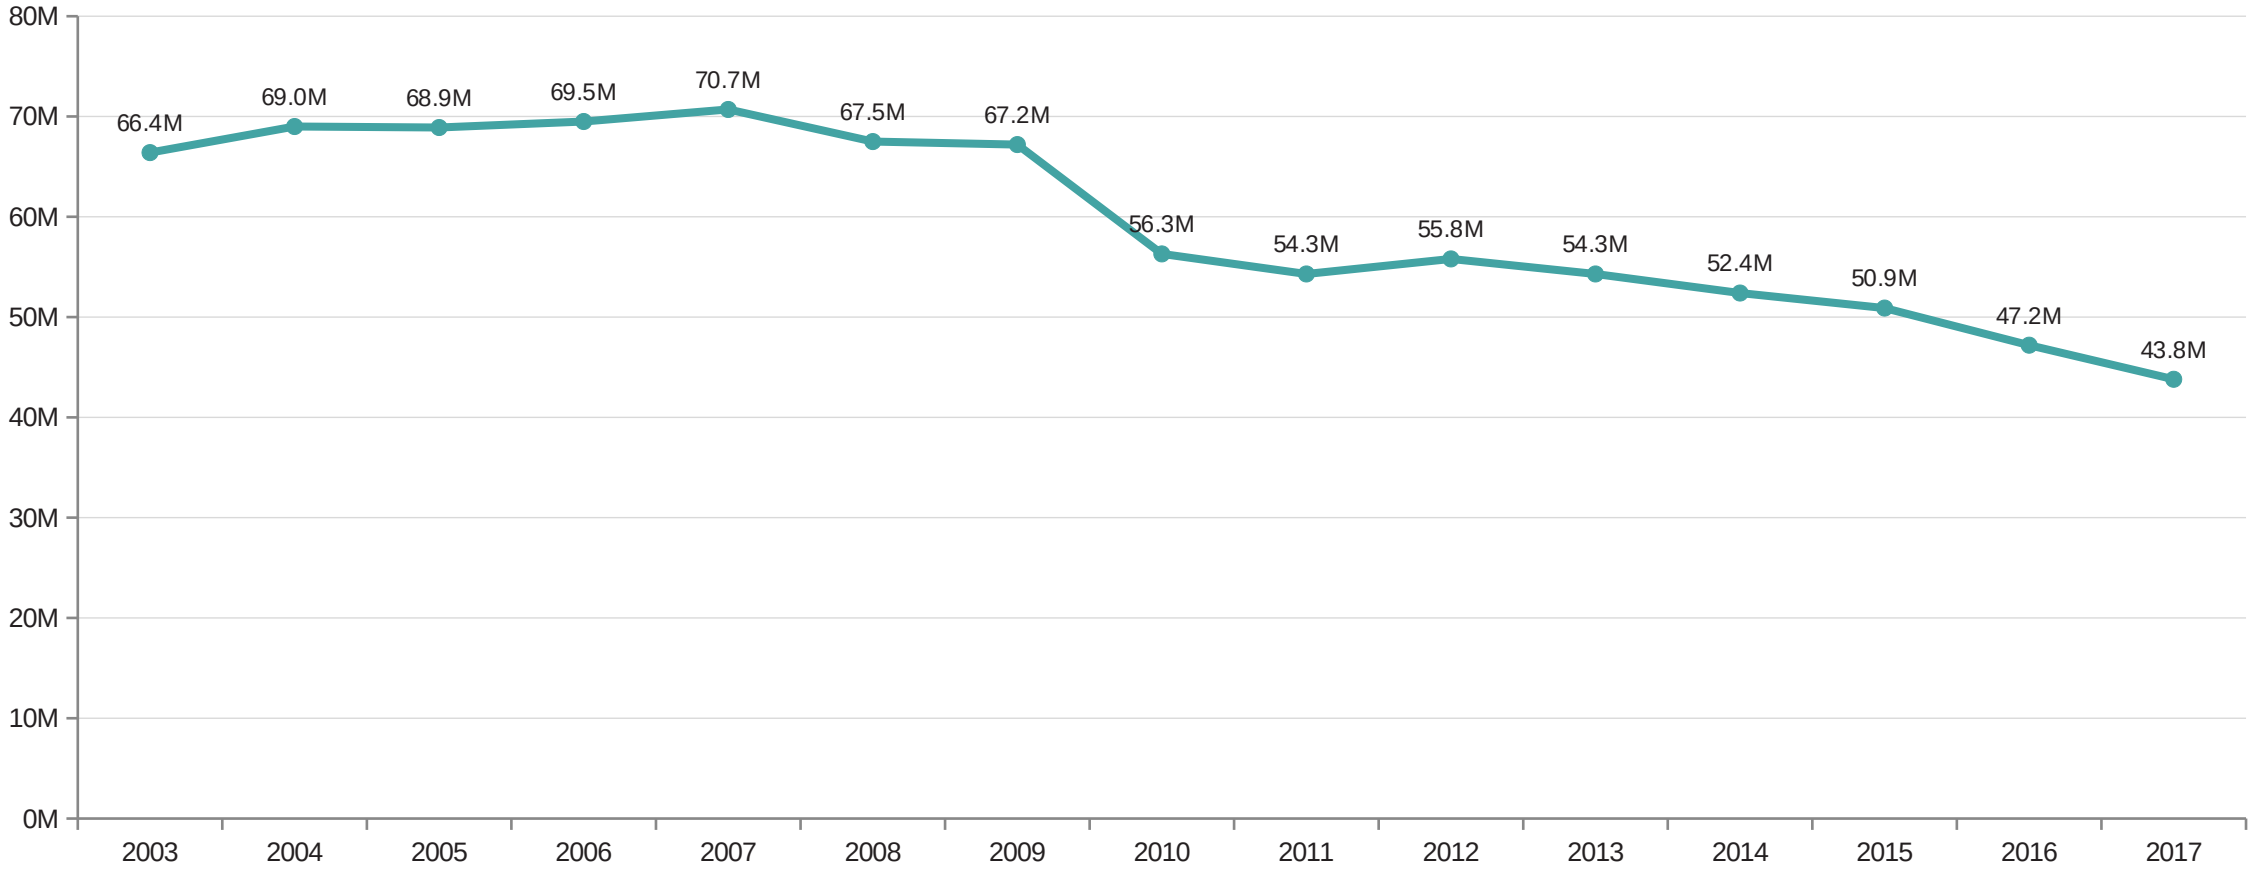

Year	Revenues	Expenses	Revenues less expenses	OCTA revenues	Specialized service revenues
2017	**$305.2M**	**$306.1M**	**−$0.9M**	**$264.1M**	**$38.1M**
2015	$300.4M	$295.3M	$5.1M	$264.8M	$33.3M
2013	$321.7M	$289.7M	$32.0M	$284.8M	$34.9M
2011	$243.9M	$267.8M	−$23.9M	$212.7M	$29.0M
2010	$279.8M	$285.6M	−$5.8M	$250.4M	$27.4M

Orange County transit, 2003–2017: OCTA's staff fell **14.6%** (**1,786 to 1,526**), with the largest drop after 2009 (**2,235 to 1,585**), while its expenses rose **17.9%** (**$193.4M to $227.9M**), or from **$108K to $149K** per employee. Specialized service expenses grew fastest (**$23.0M to $75.1M**, **+227%**). Countywide, expenses exceeded revenues in 10 of 15 years (2017: **−$0.9M**). A leaner, cost-pressured system can limit how much extra event-night service OCTA adds on short notice. Solution: OCVIBE should request event-night service early, share its event calendar with OCTA, and consider co-funding late-night service on its biggest nights. The data ends in 2017, so it shows the long-term trend, not today's budgets.

What it means for OCVIBE: Getting here

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

Most visitors arrive by car: **74.0%** of domestic trips start within 50 miles, and SR-57 beside OCVIBE carries about **275,000 vehicles** a weekday. ARTIC adds 277 weekday bus trips (routes 50, 53 and 553: 100 + 102 + 75), Amtrak and Metrolink.

WHAT IT ENHANCES

- Marketing: A large drive market: about **20 million** people live within 90 miles, and **15.6 million** within 50 miles of ARTIC.
- Operations: A transit front door: 277 weekday bus trips at ARTIC, Amtrak (**191,153** passengers in 2024), Metrolink's Orange County Line (**5,116** weekday riders, **+4%** vs. a year earlier) and the 2028 Katella bridge.
- Marketing: Travelers already ask Visit Anaheim's trip planner about ARTIC parking, Honda Center events and OCVIBE's opening.

WHAT OCVIBE NEEDS

- Operations: An event-night plan: Honda Center (**18,300**+ seats) and the concert hall (**5,000 seats**) can hold events the same night, and the City lists **12,369–12,823** planned parking spaces.
- Events: Late-night service requested early: only 11 OCTA buses leave ARTIC after 10 p.m.; OCTA's staff fell **14.6%** from 2003 to 2017 and county transit riders fell **38%** from 2007 to 2017. [Calculation: OCTA staff: **1,526** ÷ **1,786** − 1 = **-14.6%** (2003 to 2017); county transit riders: **43.8M** (2017) ÷ **70.7M** (2007) − 1 = **-38%**]
- Marketing: One 'getting to OCVIBE' page covering parking, bus, Amtrak and Metrolink.

Source: Azira via Symphony (District 5, Jan. 1–May 31, 2026; domestic visitors, Aug. 2026); OCTA Traffic Flow Map (pub. Aug. 2026) and bus schedules (Aug. 9, 2026 onward; ARTIC routes unchanged Nov. 8, 2026); Amtrak ANA fact sheet (2024 data; pub. Oct. 27, 2025); Metrolink FY26 Q2 (Oct.–Dec. 2025); CoStar reports and export (data through Aug. 2026; pulled Oct. 12, 2026); Mindtrip trip planner messages (Oct. 1, 2025–Oct. 11, 2026); LARC Market Intelligence Reports (Jan.–Sept. 2026); OCVIBE concert hall release, PR Newswire (Mar. 12, 2026); City of Anaheim OCVIBE page (2026); OCVIBE fact sheet (Apr. 2024); California's transit systems data snapshots (2003–2017; downloaded Oct. 12, 2026)

Visit Anaheim marketing drove 368,416 observed visits this year

News report · Marketing reach · Ad exposures Jan. 1–Aug. 31, 2026 · U.S. audiences · Contains confidential data (shareable summary in the dashboard)

THE LEDE

ANAHEIM, Calif. (Oct. 13, 2026): Visit Anaheim's paid media produced **31.0M** measurable impressions and **368,416** observed visits from January through August 2026; visitors arrived about **39 days** after seeing an ad.

WHY IT MATTERS

Paid media already moves people to travel to Anaheim, which gives OCVIBE a proven channel. Azira matched **368,416** visits to **31.0 million** measurable impressions, or **11.9** visits per **1,000,** from Jan. 1 to Aug. 31, 2026.

What it means for OCVIBE: Marketing reach

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

Visit Anaheim's paid media produced **31.0M** measurable impressions and **368,416** observed visits from January through August 2026; visitors arrived about **39 days** after seeing an ad.

WHAT IT ENHANCES

- Marketing: Reach that converts: **11.9** visits per **1,000** impressions overall and **34.4** for the best luxury placements. [Calculation: **368,416** observed visits ÷ **31.0M** impressions × **1,000** = **11.9**; **74.9K** visits ÷ **2,177.3K** impressions × **1,000** = **34.4** (Basis DSP luxury placements)]
- Measurement: A measurable channel: attribution can track visits from target markets once OCVIBE appears in campaigns.
- Events: Timing: visitors arrive about **39 days** after an ad, so events can be marketed six to eight weeks ahead.

WHAT OCVIBE NEEDS

- Events: An event calendar shared with Visit Anaheim six to eight weeks ahead.
- Marketing: OCVIBE venue, dining and opening content for Visit Anaheim's luxury and travel-planning channels.
- Measurement: Control markets for key campaigns, since attribution shows association, not cause.

Source: Azira media attribution via Symphony (ad exposures Jan. 1–Aug. 31, 2026)

Anaheim hotel revenue per room up 11.4% from a year earlier as OCVIBE nears opening

News report · Market outlook · LARC Market Intelligence Reports, Jan.–Sept. 2026 · Contains confidential data (shareable summary in the dashboard)

THE LEDE

ANAHEIM, Calif. (Oct. 13, 2026): Anaheim hotel revenue per room rose **11.4%** in Q2 2026 vs. Q2 2025 (U.S. **+5.7%**), and Convention Center room nights on the books are pacing **+12%** for 2026 and **+17%** for 2027 vs. the same point a year earlier. Costs are the headwind: prices are rising about **3.2%** a year and labor about **6%**.

WHY IT MATTERS

OCVIBE opens into a market with rising hotel revenue and strong convention pace, along with rising costs. LARC reports Anaheim revenue per available room up **11.4%** in Q2 2026 vs. Q2 2025 and convention room nights pacing **17%** ahead for 2027 vs. the same point a year earlier, with inflation about **3.2%** a year.

Hotel demand and conventions are strong; costs are the main headwind

Analysis · LARC market outlook · Anaheim vs. U.S. · forecasts to 2030

Revenue per available room, change vs. the same period a year earlier

Year	Occupancy	Average nightly rate	Revenue per available room	Change
2024	71.7%	$207.82	$148.93	▼ −1.5%
2025	72.3%	$209.68	$151.58	▲ +1.8%
2026 F	**73.9%**	**$219.53**	**$162.18**	**▲ +7.0%**
2027 F	73.0%	$232.78	$169.95	▲ +4.8%
2028 F	71.9%	$244.80	$175.90	▲ +3.5%
2029 F	71.4%	$255.09	$182.20	▲ +3.6%
2030 F	71.2%	$264.56	$188.33	▲ +3.4%

- Conventions: room nights on the books **+12%** for 2026 and **+17%** for 2027 (Sept. 2026).
- Events: 2028 Olympics cycling and volleyball in Anaheim; the 2026 World Cup boost turns into a tough comparison in Q2–Q3 2027.
- Inflation: Anaheim prices forecast **+3.2%** a year (3 yrs), above the U.S.; hotel labor costs about **+6%** a year.
- Risks: gas prices and airfares (Iran conflict), possible federal shutdown, slower U.S. job growth.

Convention bookings for 2027 strengthened through 2026

Analysis · Convention Center room nights on the books vs. same point last year, by LARC report edition

Source: LARC Market Intelligence Reports (Jan.–Sept. 2026).

What it means for OCVIBE: Market outlook

Analysis · What this insight enhances for OCVIBE, and what OCVIBE needs to act on it

KEY INSIGHT

Anaheim hotel revenue per room rose **11.4%** in Q2 2026 vs. Q2 2025 (U.S. **+5.7%**), and Convention Center room nights on the books are pacing **+12%** for 2026 and **+17%** for 2027 vs. the same point a year earlier. Costs are the headwind: prices are rising about **3.2%** a year and labor about **6%**.

WHAT IT ENHANCES

- Events: Opens into growth: 2027 convention pacing (**+17%** vs. the same point a year earlier) coincides with OCVIBE's first venues, and conventions (142 events secured for 2026, about **600,000 room nights**) bring weekday guests.
- Events: A proven pairing: D23's evening showcases at Honda Center drew **36,000**+ guests over three nights alongside the Convention Center expo (Aug. 2026).
- Marketing: The 2028 Olympics bring indoor volleyball to Honda Center the same year OCVIBE's first hotel and the Katella bridge open.

WHAT OCVIBE NEEDS

- Events: Evening-event packages for 2027 Convention Center groups, sold with Visit Anaheim's sales team.
- Strategy: 2027 targets set against 2025 as well as 2026, since the 2026 World Cup makes Q2–Q3 2027 a tough comparison.
- Operations: Staffing and pricing plans with labor (about **6%** a year) and price growth (about **3.2%** a year) built in.

Source: LARC Market Intelligence Reports (Jan.–Sept. 2026); Visit Anaheim via CoStar (2026 bookings); BizBash (Sept. 16, 2026); Orange County Business Journal (June 1, 2026)

Growth, opportunities, quick wins, hurdles, pitfalls and explanations

Every hurdle and pitfall comes with a solution · sources and dates in the dashboard

Anaheim and OCVIBE today

Type	Point	Solution
Growth	Tourism Economics forecasts Anaheim visitor spending of **$7.2B** in 2026, up **5.6%** vs. 2025, with visitors up **1.9% to 27.0M**.	None needed
Opportunity	The OCVIBE area already accounts for **5.2%** of Anaheim visitor days, a measured starting point.	None needed
Quick win	Capture ticket-buyer ZIP codes from the first 2027 shows so OCVIBE's visitors can be measured, not estimated.	None needed
Early hurdle	No OCVIBE attendance, ticketing or hotel data exists yet.	Agree a quarterly data exchange with Visit Anaheim BI before the 2027 openings.
Pitfall	Citywide Tourism Economics totals do not measure OCVIBE.	Report OCVIBE with its own ticketing, hotel and card data and Datafy's area share, not a share of city totals.
Explanation	Tourism Economics measures visitors and spending for the City of Anaheim; Datafy and Azira measure activity in specific areas, such as the OCVIBE area and District 5.	None needed

Orange County tourism

Type	Point	Solution
Growth	Orange County visitors rose from **39.0M** (2021) to **51.3M** (2025), **+31.5%**; visitor spending in 2025 (preliminary) was **21.5%** above the 2019 baseline (**$15.39B** vs. **$12.67B**).	None needed
Opportunity	January (**61.2%**), December (**68.9%**) and February (**69.0%**) are the most open hotel months (2023-2025 averages).	Schedule OCVIBE events that draw overnight guests in those months and share dates with Visit Anaheim for hotel packages.
Quick win	The latest county visitor survey (CIC Research, 2019) answers purpose, party size and children for both Orange County and Anaheim.	Use it now as the latest available profile, labeled 2019, in ECA's study; it is in the Reports and data library.
Early hurdle	No Orange County visitor count is published for 2020 or 2026 year to date, and the two visitor series use different methods.	Request 2019-2020 and 2026 county estimates from Tourism Economics; until they arrive, show Anaheim's Jan.-June 2026 count (**+3.1%**) and county hotel data as the current read.
Pitfall	The Los Angeles-Long Beach-Anaheim metro area includes Orange County, so its **44.7%** share mixes local and Los Angeles County trips; Azira has no ZIP codes.	Report metro-level shares with that note; a county or ZIP origin split would require a custom pull from Symphony or a new survey.
Explanation	Azira length of stay and distance shares shifted in 2026 (trips under 50 miles rose to **73.9%-83.4%** from **59%-66%**).	Treat 2026 Azira trends as a method change until Symphony confirms; compare within 2026 only.

Source: Anaheim and OCVIBE today: Tourism Economics, Anaheim Travel Forecast (Sept. 2026); Datafy Anaheim visitor report (calendar 2024) | Orange County tourism: Tourism Economics, Economic Impact of Visitors to Orange County, 2025 (pub. May 2026); Dean Runyan Associates for Visit California, The Economic Impact of Travel in California, 2025 (preliminary) (Apr. 2026), Orange County detail; CoStar, Orange County hotel market (monthly data through Sept. 2026; market report Oct. 12, 2026)

Growth, opportunities, quick wins, hurdles, pitfalls and explanations (continued)

Every hurdle and pitfall comes with a solution · sources and dates in the dashboard

Who visits

Type	Point	Solution
Growth	**85.8%** of District 5 visitors already stay overnight.	None needed
Opportunity	**44%** of District 5's domestic visitors come from outside California; fly-in markets include Seattle, Phoenix, Las Vegas, Orlando and New York.	None needed
Quick win	Package OCVIBE with Anaheim Resort stays (**13.7%** of District 5 visitors already go there).	None needed
Early hurdle	International restaurant spending fell **19.1%** in August 2026 vs. August 2025.	Offer menus and promotions aimed at Mexico and Canada visitors, the largest international markets.
Pitfall	Azira, Datafy and Visa count visitors differently.	Compare trends within each source, not levels across sources.
Explanation	Azira counts devices seen in District 5 (sample **1,003,735,** Jan.–May 2026); Datafy measures Anaheim visitor days in 2024. Both describe the area before OCVIBE's new venues open.	None needed

Visitor spending

Type	Point	Solution
Growth	Visitor spending grows faster than visits (**+4.1%** vs. **+1.4%** a year to 2028), so spending per visitor rises **+2.6%** a year.	None needed
Opportunity	Visa spending per card rose **4.7% to $85** in August 2026 vs. August 2025: visitors are spending more per trip.	None needed
Quick win	Price OCVIBE dining and event packages for visitors, not only locals.	None needed
Early hurdle	International card spending fell **5.0%** in August 2026 vs. August 2025.	Feature OCVIBE in Visit Anaheim's Mexico, Canada and Japan efforts, the top three international markets.
Pitfall	Higher prices can inflate spending without more visitors.	Track visits and spending per visitor together, not spending alone.
Explanation	Spending grows faster than visits because spending per trip rises with prices (Anaheim inflation about **3.2%** a year) while visitor counts grow slowly.	None needed

Source: Who visits: Azira via Symphony (District 5, Jan. 1–May 31, 2026; domestic visitors, Aug. 2026); Azira via Symphony (District 5, Jan. 1–May 31, 2026; domestic visitors, Aug. 2026); Visa Destination Insights via Symphony (Aug. 2026 vs. Aug. 2025) | Visitor spending: Tourism Economics, Travel Forecast (pub. Sept. 2026; data to Aug. 31, 2026); Visa Destination Insights via Symphony (Aug. 2026 vs. Aug. 2025)

Growth, opportunities, quick wins, hurdles, pitfalls and explanations (continued)

Every hurdle and pitfall comes with a solution · sources and dates in the dashboard

Jobs and economy

Type	Point	Solution
Growth	Visitor spending grew **3.1%** in 2025 vs. 2024; jobs supported reached **67,817**.	None needed
Opportunity	Food and beverage was the fastest-growing category in 2025 (**+5.5%** vs. 2024) and OCVIBE plans 35+ restaurants.	None needed
Quick win	Recruit restaurant staff through local hospitality programs before the 2027 openings.	None needed
Early hurdle	Labor costs are rising about **6%** a year.	Plan staffing and pricing with those costs built in; cross-train staff across venues.
Pitfall	Applying Anaheim's average ratios to a different mix of spending can misstate jobs.	Refine with OCVIBE's actual category mix once venues report sales.
Explanation	Tourism Economics converts visitor spending into direct, indirect and induced jobs and taxes; Anaheim's 2025 ratio is **$1.53** of total impact per **$1** of visitor spending.	None needed

Hotel market

Type	Point	Solution
Growth	Resort-area hotel revenue per room was up in 8 of 8 months of 2026 (**+10.9%** Jan.–Aug. 2026 vs. Jan.–Aug. 2025).	None needed
Opportunity	Sunday–Monday occupancy is **15.7 points** below Friday–Saturday; each point is worth about **$5.1M** a year.	None needed
Quick win	Schedule Sunday shows and Monday conventions-plus-concert nights.	None needed
Early hurdle	Construction and financing costs limit new hotels (**668 rooms** under construction countywide).	Phase OCVIBE's hotels with pre-sold group blocks from the convention center.
Pitfall	Pricing OCVIBE hotels at resort-area rates (**$255**) without resort-area demand.	Benchmark against both the Anaheim (**$130**) and Disneyland (**$255**) submarkets and adjust by night of week.
Explanation	CoStar covers submarkets and STR covers Visit Anaheim's hotel sets; the two use different hotels, so compare trends, not levels.	None needed

Source: Jobs and economy: Tourism Economics, Economic Impact 2025 (pub. Apr.–May 2026); Tourism Economics, Economic Impact 2025 (pub. Apr.–May 2026); City of Anaheim OCVIBE page (2026); OCVIBE fact sheet (Apr. 2024) | Hotel market: CoStar reports and export (data through Aug. 2026; pulled Oct. 12, 2026); STR daily data, Visit Anaheim hotel sets (Jan. 1–Oct. 3, 2026)

Growth, opportunities, quick wins, hurdles, pitfalls and explanations (continued)

Every hurdle and pitfall comes with a solution · sources and dates in the dashboard

One more night

Type	Point	Solution
Growth	Each **1%** of visitors who add a day is worth **$31.5M** a year.	None needed
Opportunity	Two in three Anaheim visitors (**67.5%**) are day visitors who could be converted to overnight stays.	None needed
Quick win	Bundle evening shows with hotel nights and late checkout.	None needed
Early hurdle	OCVIBE's own hotels do not open until 2028.	Partner with nearby Anaheim hotels for 2027 show-and-stay packages.
Pitfall	The **$3.15B** upper bound assumes every visitor adds a day.	Use the **$794M** lodging figure or the **1%**-step values when planning.
Explanation	The **$794M** divides 2025 lodging spending (**$1.72B**) by the **2.17**-day average stay; it assumes spending per night stays the same.	None needed

Getting here

Type	Point	Solution
Growth	Metrolink's Orange County Line weekday riders rose **4%** vs. a year earlier.	None needed
Opportunity	**15.6 million** people live within 50 miles of the ARTIC rail station.	None needed
Quick win	Publish one 'getting to OCVIBE' page with parking, bus, Amtrak and Metrolink options.	None needed
Early hurdle	Only 11 buses leave ARTIC after 10 p.m.	Ask OCTA for event-night extra trips; set rideshare zones at ARTIC.
Pitfall	Honda Center and the concert hall can both hold events on the same night, while late transit is thin (11 buses after 10 p.m.).	Coordinate event start times and parking plans with Honda Center, and ask OCTA for event-night service.
Explanation	Driving dominates because most visitors live within 50 miles and county transit riders fell from **70.7M** in 2007 to 43.8M in 2017; driving cost **$0.82** a mile in 2024.	None needed

Source: One more night: Visit Anaheim BI, Extra Night study (2025 inputs; recalculated Oct. 12, 2026); Tourism Economics, Economic Impact 2025 (pub. Apr.–May 2026) | Getting here: Amtrak ANA fact sheet (2024 data; pub. Oct. 27, 2025); Metrolink FY26 Q2 (Oct.–Dec. 2025); OCTA Traffic Flow Map (pub. Aug. 2026) and bus schedules (Aug. 9, 2026 onward; ARTIC routes unchanged Nov. 8, 2026); Mindtrip trip planner messages (Oct. 1, 2025–Oct. 11, 2026)

Growth, opportunities, quick wins, hurdles, pitfalls and explanations (continued)

Every hurdle and pitfall comes with a solution · sources and dates in the dashboard

Marketing reach

Type	Point	Solution
Growth	Paid media drove **368,416** observed visits in eight months of 2026.	None needed
Opportunity	Luxury placements returned **34.4** visits per **1,000** impressions, nearly three times the average.	None needed
Quick win	Add OCVIBE venues and dining to Visit Anaheim's luxury and travel-planning content.	None needed
Early hurdle	Visitors arrive about **39 days** after an ad.	Share OCVIBE event calendars six to eight weeks ahead.
Pitfall	Attribution shows association, not proof that an ad caused a visit.	Use control markets or holdout tests for key campaigns.
Explanation	Attribution matches devices that saw an ad with devices later seen in Anaheim; it measures visits after exposure, not proof the ad caused them.	None needed

Market outlook

Type	Point	Solution
Growth	Q2 2026 hotel revenue per room **+11.4%** vs. Q2 2025, double the U.S. (**+5.7%**).	None needed
Opportunity	Convention room nights for 2027 pace **+17%** ahead of the same point a year earlier, the year OCVIBE's first venues open.	None needed
Quick win	Offer convention groups OCVIBE evening events in 2027 sales packages.	None needed
Early hurdle	The 2026 World Cup makes Q2–Q3 2027 a tough comparison.	Set 2027 targets against 2025 as well as 2026.
Pitfall	Higher gas prices and airfares, a possible federal shutdown and slower job growth could soften travel.	Lean on drive markets within 90 miles and flexible, refundable packages.
Explanation	Booking pace compares convention room nights on the books with the same point a year earlier; LARC combines CoStar hotel data, Moody's economics and Visit Anaheim pacing.	None needed

Confidential data: what to share with outside representatives

Full figures stay in the dashboard for OCVIBE's use · share these summaries, not the figures or the source files

Question	Shareable summary (no figures)	Confidential source
What is one more night per visitor worth?	Visit Anaheim's One more night study shows that longer stays are one of the largest growth levers for Anaheim's visitor economy: each added night per visitor adds substantial lodging and total visitor spending.	Azira via Symphony, Visit Anaheim study
What is each 1% of visitors staying a day longer worth?	Even a small share of visitors staying one day longer adds meaningful visitor spending. Sunday and Monday are the most open hotel nights, so events on those nights fill rooms that would otherwise sit empty.	STR, Visit Anaheim study
How do people get to the OCVIBE area?	Most visitors to Anaheim and Garden Grove arrive by car from within driving distance. SR-57 beside OCVIBE is one of the area's busiest freeways, and ARTIC adds bus, Amtrak and Metrolink service.	Azira via Symphony
Who visits District 5, where OCVIBE is being built?	Most visitors to District 5, where OCVIBE is being built, stay overnight, a large share are first-time visitors, and their household incomes are above the average for Anaheim and Garden Grove visitors.	Azira via Symphony, CoStar
How much Anaheim visitor activity already includes the OCVIBE area?	The OCVIBE area already accounts for a small but measurable share of Anaheim visitor days before its new venues open, which gives a baseline for measuring OCVIBE's growth.	Azira via Symphony, Datafy
Which markets bring visitors and spending?	Southern California is the largest source of District 5 visitors. The leading fly-in markets by visitor card spending are Seattle, Phoenix, Las Vegas, Orlando and New York; internationally, Mexico, Canada and Japan.	Azira via Symphony, Visa via Symphony
Does Visit Anaheim's marketing bring visitors?	Visit Anaheim's paid media is measurably linked to later visits to Anaheim, and luxury and travel-planning placements perform best.	Azira via Symphony

Source: Visit Anaheim Business Intelligence (Nov. 5, 2026). Confidential sources: Visit Anaheim-owned studies and licensed data (STR, CoStar, Azira and Visa via Symphony, Datafy, LARC). Published sources can be quoted with their source and date.

Confidential data: what to share with outside representatives (continued)

Full figures stay in the dashboard for OCVIBE's use · share these summaries, not the figures or the source files

Question	Shareable summary (no figures)	Confidential source
How are hotels performing?	Hotels in the Disneyland resort area run among the highest occupancy and rates in Orange County, and Anaheim's hotel revenue growth is outpacing the U.S.	CoStar, LARC, STR
What is the outlook to 2028?	Visit Anaheim's licensed hotel forecast points to continued growth in Anaheim hotel revenue in 2026. Tourism Economics' published visitor and spending forecast can be quoted with its source and date.	LARC
How many visitors come to Orange County, and how many stay overnight?	Orange County's 2025 visitor count from Tourism Economics can be quoted with its source and date. Compared with the pre-pandemic 2019 baseline from Visit Anaheim's commissioned visitor survey, 2025 volume is at a similar level.	CIC Research
Where do Orange County visitors come from?	More than half of Orange County visitors come from Southern California. The Los Angeles and Inland Empire metros are the largest domestic markets, and Mexico and Canada lead international markets.	Azira via Symphony, CIC Research
When is Orange County busiest?	Orange County hotels are fullest in summer, peaking in July, and have the most open rooms in January, December and February.	CoStar
Why do people visit Orange County, and who travels with them?	Most Orange County visitors travel for leisure or to see friends and family, usually in small groups, and more than a third bring children. Overnight visitors stay several nights.	Azira via Symphony, CIC Research
How many hotel rooms does Orange County have, and how full are they?	Orange County's hotel market is running fuller and at higher rates in 2026 than in 2025, with rates well above the pre-pandemic baseline.	CoStar

How Visit Anaheim data can help OCVIBE succeed

Recommendations from Visit Anaheim BI · for discussion

What to do	Who	When	Why	How we'll measure it
Share ticket-buyer ZIP codes and hotel package results with Visit Anaheim	OCVIBE ticketing and hotels; Visit Anaheim BI	From the first 2027 shows; monthly	No OCVIBE visitor data exists yet; ZIP codes and hotel results measure OCVIBE's visitors directly instead of estimating them	Share of attendees from 50+ miles; extra nights booked
Program evening events with hotel packages	OCVIBE venues; Anaheim hotels	2027 (partner hotels); 2028 (OCVIBE hotels)	Each **1%** of visitors who add a day is worth **$31.5M** a year	Overnight share; average stay vs. **2.17 days**
Fill Sunday and Monday nights	OCVIBE programming; Visit Anaheim sales	From 2027	Sun–Mon hotel occupancy is **15.7 points** below Fri–Sat; each point is worth about **$5.1M**	Sun–Mon occupancy (STR)
Feature OCVIBE in Visit Anaheim campaigns for luxury and fly-in markets	Visit Anaheim marketing; OCVIBE	Six to eight weeks before each event	Luxury placements return **34.4** visits per **1,000** impressions	Visits per **1,000** impressions (Azira)
Add late-night transit and a single access page	OCTA; City of Anaheim; OCVIBE	Before the 2027 openings	Only 11 buses leave ARTIC after 10 p.m.	Event-night transit riders; parking fill rate
Use the tight hotel pipeline to support OCVIBE's hotels and dining	OCVIBE development team	2026–2028	Only **668 rooms** are under construction countywide; hotel F&B revenue is growing	OCVIBE hotel occupancy and rate vs. market
Set traffic and visitation baselines before opening	City of Anaheim; Visit Anaheim BI	Before 2027	Current Katella counts date from 2021	New counts on Katella Ave and SR-57; Datafy share **5.2%**

Visit Anaheim can refresh these measures quarterly and add OCVIBE-specific tracking (visitation, spending, length of stay) as venues open.

Source: Visit Anaheim Business Intelligence source register, Oct. 12, 2026.

About the data

Limits and differences between sources to keep in mind

- Tourism Economics figures cover the City of Anaheim. They are not allocated to OCVIBE, and this report contains no estimate of OCVIBE's impact; OCVIBE's results will be measured once its venues open.
- Years: 2025 figures are measured results that Tourism Economics published in 2026; 2026 figures are Tourism Economics' forecast (Sept. 2026) and are labeled as such.
- Spending per visitor is calculated from rounded Tourism Economics totals and is approximate.
- One-more-night values are scenarios that hold spending per day constant; they are not forecasts.
- Traffic counts near OCVIBE on the 2026 map date from 2021–2024; freeway volumes are Caltrans 2024 counts.
- Symphony, Datafy and Tourism Economics use different methods, device panels and periods; compare them as context, not like-for-like.
- LARC's Anaheim market tables (CoStar) and Visit Anaheim hotel set tables use different bases.
- CoStar figures are trailing 12 months or year to date through Aug. 2026. CoStar's own text and tables differ in a few places: the Disneyland submarket 12-month rate (**$250** in text, **$255** in tables; tables used), Orange County 12-month sales (**$218.1M** headline, **$234.2M** in tables; tables used), and the name of the 352-room hotel sold in May 2026 (two names given; address shown instead).

About the data (continued)

Limits and differences between sources to keep in mind

- CoStar hotel revenue mix comes from a sample of reporting hotels and may not represent every property.
- OCVIBE's cost and timeline differ between CoStar (**$4 billion**, buildout by 2028) and LARC (**$5 billion**, final phase by 2033); OCVIBE's own figures should be used.
- Not yet received: Tourism Economics transportation impact data.
- Mindtrip counts are small (53 of **3,149** messages) and include six quiz entries; treat them as signals, not measures.
- Published OCVIBE program figures differ by source: concert hall **5,613 seats** (City, 2026) vs. **5,700** (OCVIBE 2024; visitanaheim.org); office up to **563,875** sq ft (City) vs. **865,000** sq ft (visitanaheim.org). The model uses the City's figures. OCVIBE's newest figure is **5,000 seats** (concert hall release, Mar. 12, 2026).
- California's 2025 statewide figures come from a secondary summary of Visit California's report; confirm against the primary report before external use.
- Visa figures come from Visit Anaheim's Visa Destination Insights view in Symphony; confirm the geography it covers before comparing it with other sources. The two Visitor Type files received are identical.
- Amtrak's 2023 count at Anaheim (**70,700**) is unusually low compared with 2022 and 2024; check it before using it in a trend.
- STR and CoStar measure different hotel sets (Visit Anaheim sets vs. CoStar submarkets) and should not be compared directly.
- California transit systems snapshots: the latest year is 2017, so they show trend, not current staffing or budgets. Dollars are nominal (not adjusted for inflation). The two operator files are expenses and revenues: their totals match the county Expenses and Revenues rows exactly. Laguna Beach shows **1,647** employees in 2006 (14–125 in other years), which points to a reporting error; the 2006 all-operator staff total (**4,091**) is affected. The OCTA rows are consistent.
- California transit passenger and vehicle snapshots: Laguna Beach reports 0 passengers in 2013 and the mode file reports 0 "Other" passengers in 2007 and 2010, which look like missing reports. Demand-response passengers in 2010 differ by file (**2.33M** by mode vs. **1.48M** for OCTA specialized service), though the county totals match. OCTA specialized service lists **848 vehicles** in 2016 (486–587 around it), likely a reporting outlier. Two uploads were duplicates (Snapshot 3 and Snapshot 4) and were counted once.
- Average spend compares per-visitor values (Tourism Economics) with per-trip values (U.S. Travel Association, in 2025 dollars); compare direction, not exact levels.
- Visitor transportation shares differ by source: Visit California counts visitor air fares and statewide ground travel; Tourism Economics' city figures count spending inside the city (Anaheim has no commercial airport).
- Visit California's Orange County total (**$17.1B** direct travel spending, 2025, preliminary) uses a different method from Tourism Economics' (**$17.99B** visitor

When each source updates

Updated quarterly · Data last updated Oct. 19, 2026

Source	How often it publishes	In this edition	At each quarterly update
Tourism Economics, Anaheim Travel Forecast	Quarterly	Sept. 2026	Replaced with the newest forecast
Tourism Economics, Economic Impact of Visitors	Annual (spring)	Calendar 2025 (pub. 2026)	Replaced when the new year is published
LARC Market Intelligence Reports; quarterly forecasts	Monthly; quarterly	Jan. to Sept. 2026	Latest month and forecast added
STR daily data (Visit Anaheim hotel sets)	Weekly or monthly	Jan. 1 to Oct. 3, 2026	New export pulled through the latest date
CoStar reports and export	Weekly or monthly	Through Aug. 2026	New reports and export pulled
Azira via Symphony	Monthly	Jan. to Aug. 2026	New period pulled
Visa Destination Insights via Symphony	Weekly or monthly	Aug. 2026	Latest month pulled
OCTA, Amtrak, Metrolink	When a new schedule or fact sheet is published	Aug. to Nov. 2026; 2018 to 2024; FY26 Q2	Updated only if a new one is out
Datafy, U.S. BTS, California transit snapshots, City and OCVIBE public sources	As released	See the source register	Kept at their dated values until a new release is received

Source: Visit Anaheim BI, quarterly refresh runbook (Oct. 13, 2026; cadence confirmed Oct. 14, 2026); Visit Anaheim BI source register (Oct. 12, 2026).

Planned data sources (not in this edition)

Planned for a more complete view of OCVIBE visitors · not in this edition

Source	What it would add	How it would tie in	Status
Ticketmaster ticketing data, Honda Center (from OCVIBE)	Tickets sold by event and ticket-buyer home ZIP code	Shows how far event audiences travel; matched to STR nights and Visa spending on event dates; feeds Who visits and Hotel market	To request from OCVIBE through a data-sharing agreement; summaries only
Placer.ai foot-traffic data	Visits, visitor home areas, dwell time and repeat visits at OCVIBE venues and the OCVIBE area	Compared with Azira for District 5; tracks the OCVIBE area as venues open; feeds Who visits and Getting here	To source; license holder to be confirmed; summaries only

No figures from these sources appear until the data is received, checked and cleared for sharing. Each is added at the next quarterly update after it arrives. Ticketing and foot-traffic data are licensed or partner data: the report would show summaries only.

Source: Visit Anaheim BI, data plan (Oct. 14, 2026).

Formulas, with the 2025 inputs worked through

Each formula with its 2025 inputs · Visit Anaheim BI, Oct. 13, 2026

Measure	Formula	Worked example
Spending per visitor	Visitor spending ÷ visits	$6,832M ÷ 26.5M = $258 (2025)
Weighted length of stay	(domestic share × 1.9) + (international share × 5.9)	(24.7 ÷ 26.5 × 1.9) + (1.8 ÷ 26.5 × 5.9) = 2.17 days
Spending per visitor day	Spending per visitor ÷ weighted stay	$258 ÷ 2.17 = $118.71
One more night (lodging)	Lodging spending ÷ weighted stay	$1,724M ÷ 2.17 = $794M
Value of 1% adding a day	Visitors × 1% × spending per visitor day	26.5M × 1% × $118.71 = $31.5M
Value of one Sun–Mon occupancy point	Rooms × 1% × 104 nights × Sun–Mon ADR	21,318 × 1% × 104 × $230 = $5.1M
RevPAR	Occupancy × ADR	78.4% × $255 = $200 (Disneyland submarket)
Rooms available a night (average)	**Annual available room nights / days in the year**	**21,400,998 / 365 = 58,633 (Orange County, 2019)**
Seasonality average	(Month in 2023 + 2024 + 2025) / 3	(80.7 + 80.0 + 81.2) / 3 = 80.6% (July)
Year-to-date change	This year's months / same months last year - 1	13.06M / 12.67M - 1 = +3.1% (Anaheim, Jan.-June)

Source: Visit Anaheim BI calculations from source data (Oct. 13, 2026)

Glossary

Terms used in this report

Term	Meaning
ADR (average daily rate)	Room revenue divided by rooms sold; the average nightly rate.
ADT (average daily traffic)	Average number of vehicles passing a point on a weekday, both directions.
Analysis	The feature part of each section: charts, tables, what the data means for OCVIBE, and compare and contrast. Built only on the facts reported above it.
AP style	Associated Press rules for dates, numbers, titles and punctuation (for example, Oct. 13, 2026; 9 p.m.; 7.8%).
Attribution	Naming the source and date of every fact. No unsourced statements and no first person in news reports.
Baseline	A reference period that a newer figure is compared against, such as 2019 (before the pandemic). The baseline is not the period being reported: the latest figure is shown first and the baseline second, for example "51.3M in 2025 vs. the 2019 baseline of 50.21M".
Cap rate	A hotel's net operating income divided by its value; a measure of investment return.
Comparison (vs.)	Every change in this report names both sides: the latest period first, then the period, place or baseline it is compared with (for example "Q2 2026 vs. Q2 2025" or "Anaheim vs. U.S.").
Dateline	The place and date that open a news report: ANAHEIM, Calif. (Oct. 13, 2026).
Day visitor	A visitor who travels 50+ miles but does not stay overnight.
Direct, indirect and induced impact	Visitor spending itself (direct), supplier purchases it triggers (indirect), and spending of wages it supports (induced).
DMA (designated market area)	A TV market defined by Nielsen; used for media planning and origin reporting.
Group vs. transient demand	Rooms sold in blocks (conventions, tours) vs. rooms sold individually.
GTFS	General Transit Feed Specification: the public format for bus and rail schedules.
Inverted pyramid	Most important facts first, then supporting details in descending order of importance.

Source: Visit Anaheim BI; Tourism Economics, STR, CoStar and Azira definitions

Glossary (continued)

Terms used in this report

Term	Meaning
Jobs supported	Full- and part-time jobs, including proprietors, sustained by visitor spending.
Latest available survey	The newest published survey on a topic. When the newest county visitor survey is from 2019, its figures are labeled "latest county survey (2019)" because no newer edition exists, not because 2019 is being compared.
Lede	The opening sentence or paragraph that gives the core of the story; here, the key insight after the dateline.
Length of stay (LOS)	Days per visit; Anaheim's weighted average is 2.17 days (domestic 1.9, international 5.9).
MSA (metropolitan statistical area)	A federal metro-area definition; Los Angeles-Long Beach-Anaheim includes Los Angeles and Orange counties.
Multiplier	Total economic impact per $1 of visitor spending (Anaheim 1.53).
News report	An objective, factual account of the five Ws (who, what, when, where, why) plus how, written in an inverted pyramid. Each section opens with one.
Nut graph	The paragraph that explains the context and why the story matters ("Why it matters").
Occupancy	Rooms sold divided by rooms available.
Overnight visitor	A visitor who stays at least one night in paid or unpaid lodging.
Preliminary (2025)	A first estimate the publisher may revise when final data arrive. Dean Runyan Associates marks its 2025 California and county travel figures as preliminary (written "2025p" in its reports).
Quarterly update	The quarterly refresh of this report, after Tourism Economics' quarterly forecast or sooner when new data arrives. Only figures with a new published value change.
RevPAR	Revenue per available room: room revenue divided by rooms available (occupancy × ADR).
Submarket	A geographic area CoStar uses to group hotels (for example, Disneyland or Anaheim).
TID	Anaheim Tourism Improvement District: a hotel assessment that funds incentives and marketing.

Source: Visit Anaheim BI; Tourism Economics, STR, CoStar and Azira definitions

Glossary (continued)

Terms used in this report

Term	Meaning
TOT	Transient occupancy tax: Anaheim's 15% tax on hotel room charges.
Transient, group and contract demand	Hotel rooms sold to individual travelers, to groups of 10+ rooms, and under long-term contracts (for example, airline crews).
Travel party	The people traveling together on one trip, counted per group.
VFR (visiting friends or relatives)	A trip whose main purpose is to see friends or family; often combined with pleasure in surveys.
Visitor	Someone who travels 50+ miles or stays overnight (Tourism Economics definition).
Visitor day	One visitor on one day; visitors × length of stay.
Year to date (YTD)	From Jan. 1 to the latest month with data.

Source: Visit Anaheim BI; Tourism Economics, STR, CoStar and Azira definitions

Methods

How each type of number was produced

Analysis	Method	Source and date
One more night	Lodging spending divided by weighted length of stay; scenarios hold spending per day constant.	Visit Anaheim BI; Tourism Economics 2025
Economic impact	Input-output model (direct, indirect, induced) from visitor surveys, spending data and industry accounts.	Tourism Economics, pub. Apr.–May 2026
Visitor location data	Mobile device panels matched to places; visitors defined by distance and dwell time.	Azira via Symphony (2026); Datafy (2024)
Card spending	Reported Visa card transactions, classified by cardholder origin and merchant category.	Visa via Symphony (Aug. 2026)
Hotel performance	Census and sample of hotel-reported rooms, rates and revenue.	STR (2026); CoStar (through Aug. 2026)
Bus service	Raw GTFS schedules for a typical weekday (Wed. Oct. 14, 2026); trips stopping at ARTIC docks 1–7.	OCTA (Aug. 9, 2026 onward; ARTIC routes unchanged Nov. 8, 2026)
Traffic	Weekday average daily traffic from Caltrans and city counts on the OCTA map.	OCTA (pub. Aug. 2026)
Media attribution	Exposed devices matched to later visits at least three days after exposure.	Azira via Symphony (2026)

Source: Visit Anaheim BI (Oct. 12, 2026)

Methods (continued)

How each type of number was produced

Analysis	Method	Source and date
Newsroom structure	Each section is written as a broadsheet news report (dateline, lede, nut graph and six detail cards) followed by analysis. No editorial or opinion content.	Visit Anaheim BI, Oct. 13, 2026; AP Stylebook conventions
Quarterly update	Quarterly because Tourism Economics, the core of the report, delivers quarterly; weekly and monthly sources (STR, CoStar, Visa, Azira) are pulled at the same time so all figures share one as-of date. Each quarter, BI finds the newest file from each source, replaces only figures with a new published or measured value (with the new period and publication date), checks every number against its source, and republishes the dashboard, deck and data tables. Sources with nothing new keep their dated figures.	Visit Anaheim BI, quarterly refresh runbook (Oct. 13, 2026; cadence confirmed Oct. 14, 2026)
Orange County visitor profile (latest county survey, 2019)	CIC Research: 2,686 intercept interviews at 36 Orange County locations plus an internet panel of 2,087 households; 4,040 visitor groups.	CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020)
Orange County visitor volume	Tourism Economics model (2021-2025) and CIC estimates (2009-2019) are separate series; not combined.	Tourism Economics, Economic Impact of Visitors to Orange County, 2025 (pub. May 2026); CIC Research, Annual Profile of Visitors to Anaheim and Orange County, 2019 (for Visit Anaheim, Apr. 2020)
Seasonality	CoStar monthly hotel occupancy and ADR used as the monthly measure; 2023-2025 average by month.	CoStar, Orange County hotel market (monthly data through Sept. 2026; market report Oct. 12, 2026)
How comparisons are written	Each comparison is stated in one place: latest figure and period, then "vs." or "compared with" and the comparison period or baseline, then the change. Data cards that compare two years carry both values in the same card.	Visit Anaheim BI (Nov. 5, 2026)

Source: Visit Anaheim BI (Oct. 12, 2026)
