INTRODUCTION

This report presents the findings of the 2019 study of visitors to Orange County and Anaheim. CIC Research, Inc. (CIC) began conducting annual studies of visitors to Orange County in 1982 for Visit Anaheim (formerly, the Anaheim/Orange County Visitor & Convention Bureau. The annual visitor study summarizes the market profile of visitors to Orange County and their trip characteristics, as well as providing estimates of visitor volume and spending within the County.

Starting in the year 2000 the Orange County (OC) visitor profile annual reports were based on a significantly updated research methodology, and therefore, many of the findings cannot be strictly compared with earlier years. An expanded profile and analysis of the Anaheim visitor was started in 2005, and in 2017 a comprehensive effort to model the Anaheim visitor volume and spending was implemented.

METHODOLOGY

Data for this report were collected from two separate surveys. A face-to-face survey was conducted year-round with 2,686 visitor groups at 36 interview locations in Orange County. Visitors were defined as people who were living outside of Orange County and were not in the County for purposes of daily employment or education. The visitor survey respondents were read the questions by the interviewer, who then also recorded the answers. The interview took approximately seven minutes to complete and asked several questions regarding trip characteristics and visitor demographics. A copy of the Orange County visitor questionnaire can be found in the report appendices.

In addition to the face-to-face visitor interview, an internet panel sample of 2,087 households within Orange County was conducted during 2019. The internet survey asked Orange County residents whether they had out-of-county friends or relatives stay overnight in their home and selected questions regarding the demographics and trip characteristics of their overnight guests. The internet survey collected information on 1,634 visitor groups to Orange County who stayed overnight in the homes of friends or relatives in OC. Combined, the two surveys provided data on 4,040 visitor groups to OC.

Some questions such as visitors' trip planning and information sources, spending, and income were not asked in the internet survey, therefore, the results of those questions in this report reflect the face-to-face interviews only. Additionally, some interview locations were excluded where response bias was likely to occur. For example, surveys conducted at John Wayne Airport were excluded from the crosstab table on the visitors' mode of transportation. Whenever interview locations were excluded it is footnoted at the bottom of the table.

For the 2000-2019 reports, the survey data were weighted by known population totals to reflect more accurately the actual accommodation pattern of visitors. Hotel visitor information was weighted by hotel room counts and occupancy rates. The household visitor data (overnight in-home guests) were weighted by the number of households in Orange County. Additional scaling was applied to reconcile data with taxable sales, regional employment, and fiscal tax revenues reported by local governments.

This report is divided into six sections:

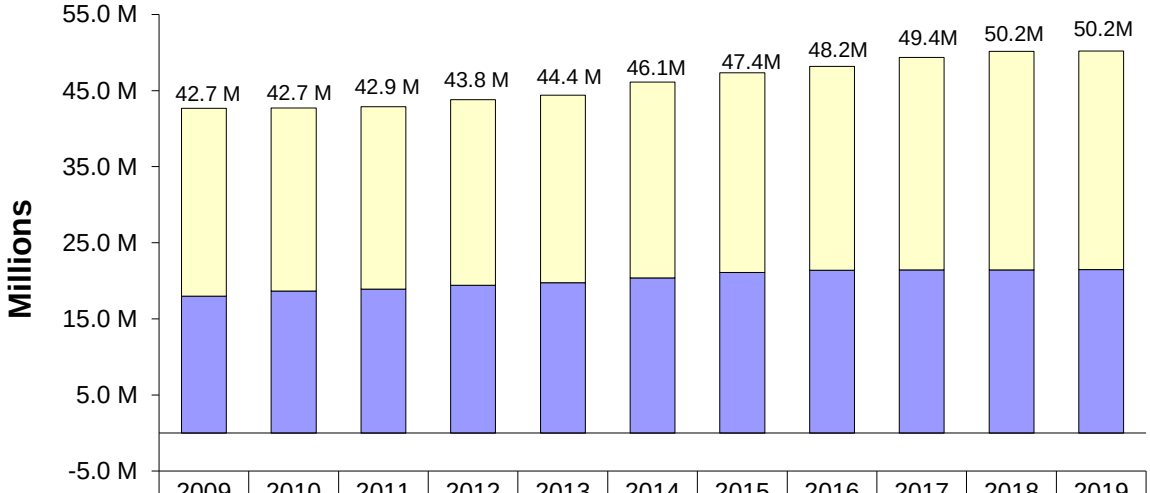

1. Introduction
2. Background
3. Historical and Industry Comparisons
4. The 2019 Orange County Visitor Profile
5. The 2019 Anaheim Visitor Profile
6. Appendices

The appendices at the end of this report include summary tables with trend data for 2015-2019 and a copy of the 2019 visitor intercept questionnaire. Seven banners of detailed crosstab tables of the 2019 survey results were submitted separately. Questions regarding this report should be directed to Skip Hull at CIC Research.

HISTORICAL AND INDUSTRY COMPARISONS

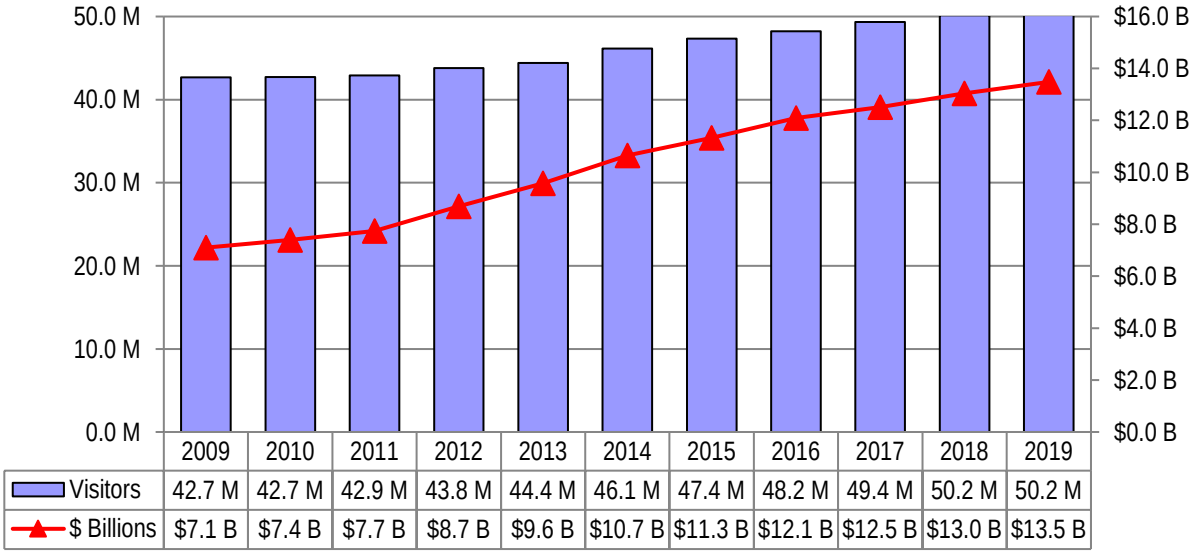

The total volume of visitors to Orange County increased 0.1% in 2019 to an estimated 50.2 million, a gain of approximately 50,000 visitors. Day visitors to the County increased slightly to almost 29 million a gain of about 20,000 visitors. The total volume of overnight visitors in Orange County increased to approximately 21.5 million in 2019, also a modest increase of 0.1% from 2018. Overnight visitors with hotel accommodations (12.4 million) increased 0.4%, private home visitors (7.1 million) recorded a decrease (-0.6%), while the "Other Overnight" visitor category increased 1.0% to almost 2.0 million visitors. Historical visitor volume and spending estimates are illustrated in Figures 1 and 2.

(2009 – 2019)

	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019
Visitors	42.7 M	42.7 M	42.9 M	43.8 M	44.4 M	46.1 M	47.4 M	48.2 M	49.4 M	50.2 M	50.2 M
$ Billions	$7.1 B	$7.4 B	$7.7 B	$8.7 B	$9.6 B	$10.7 B	$11.3 B	$12.1 B	$12.5 B	$13.0 B	$13.5 B

OC visitor spending in 2019 was almost $13.5 billion, a 3.3% increase from 2018 ($13.0 billion). Visitor spending in Orange County has increased 90.1% in the past ten years, while visitor volume has increased 17.6% in the same time period. The volume of visitors to OC reached a new record high in 2019 at 50.21 million and visitor spending in the county also reached a new record high at $13.48 billion.

Growth in the national economy as measured by GDP and employment increased in 2019. Real GDP growth for 2019 was 2.3% but is expected to drop significantly in 2020 due to the Covid-19 pandemic. During 2019 the volume of visitors (domestic and international) within the U.S. increased 1.6%. This was a little slower pace than the 1.7% increase reported for 2018. Total U.S. travel growth for 2020 will decline substantially due to the global travel response to the pandemic. Total travel expenditures in the U.S. for 2019 were estimated at over $1.1 trillion representing a 3.2% increase. U.S. travel expenditures are expected to decline substantially in 2020.[1]

Orange County Economy and Infrastructure (2009-2019)

Population. Orange County recorded a population growth of approximately 600 people in 2019 over 2018. Total population for Orange County was just over 3.2 million people in 2019 and was the third most populous county in California (following Los Angeles County – 10.3 million and San Diego County – almost 3.4 million). Orange County population grew about 0.3% for 2019.[2] Nearby Los Angeles County lost around 1,000 people (-0.01%), and San Diego County gained more than 18,500 people (0.6%) during the same time period. The city of Anaheim recorded 359,339 residents in 2019, which represents a little more than 11 percent of the total countywide population.

Figure 3
Ten-Year Change in Selected Orange County Economic Indicators
(Percent Change: 2009-2019)

Employment. Orange County reported total employment of almost 1.7 million (+1.3%) in 2019. The retail industry recorded 150,500 jobs (-1.4%), while eating and drinking establishments reported 147,000 jobs (+1.0%). The arts, entertainment, and recreation industry reported 54,000 jobs (+6.5%) and the lodging industry reported 26,000 jobs, an increase of +2.3% in 2019.

John Wayne Airport passenger arrivals decreased slightly (-0.2%) to 5.33 million for 2019. Domestic passenger arrivals increased 0.2% and international decreased 17%. John Wayne Airport reported about 14,600 average daily arriving passengers.

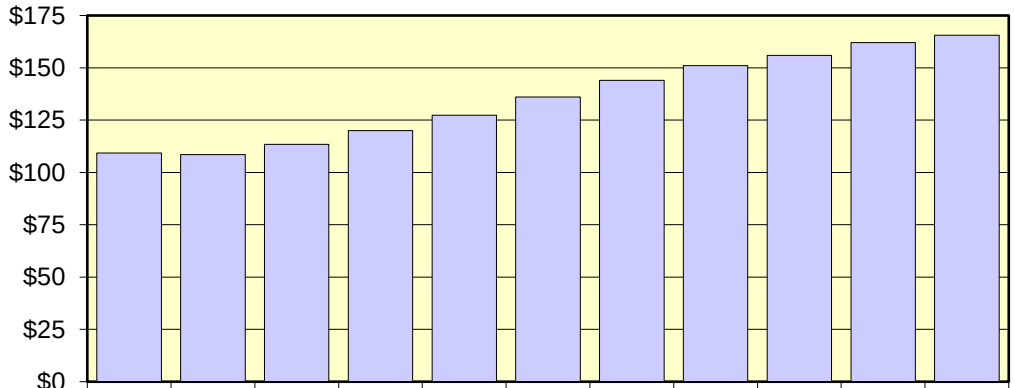

Los Angeles International Airport (LAX) reported growth in air passenger arrivals of about 0.6% in 2019 with a total of 43.8 million arriving passengers (88.1 million total passengers arriving/departing). Approximately 12.8 million (29%) of all arriving passengers at LAX arrived on international flights

During 2019 LAX was the fourth busiest commercial airport in the world, second in the United States, and the largest international airport on the U.S. West Coast. LAX offered 693 daily nonstop flights to 113 cities in the U.S. and 1,205 weekly nonstop flights to 91 cities in 47 countries on 72 commercial air carriers. LAX ranks 10th in the world and fourth in the U.S. in air cargo tonnage processed.

Orange County Lodging Industry Performance

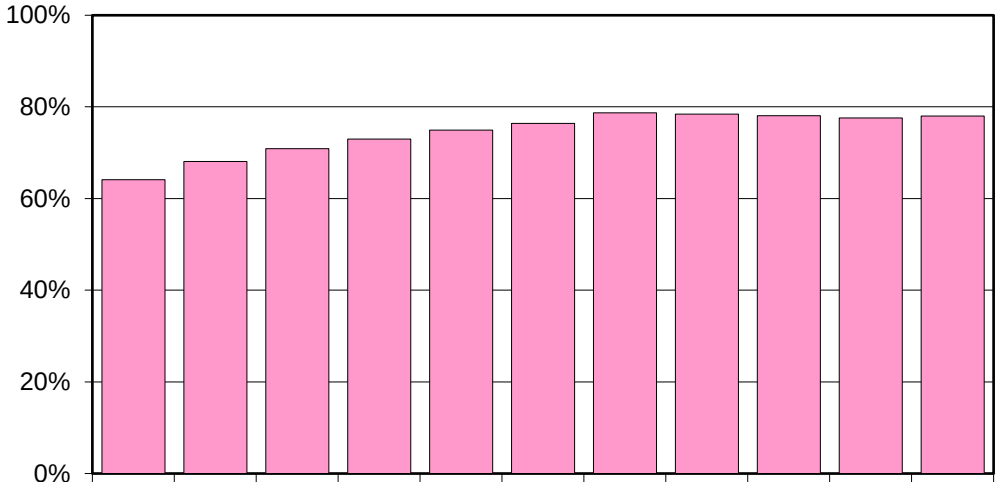

Total annual room nights available during 2019 was 21.1 million room nights. The 2019 average daily room rate (ADR) as well as the occupancy rate was up from 2018 for Orange County hotels, with a 2.5% increase in ADR to $166 ($162 in 2018) and a 0.5% increase in occupancy rate to 78.0% (77.6% in 2018). Over the last decade the ADR in Orange County grew 52% from the $109 rate in 2009. The 2019 ADR of $166 set the record high in the past 10 years. The 2019 occupancy rate of 78.0% was just -0.9% lower than the record high of 78.7% set in 2015.[3]

Comparisons of ADR and Occupancy Rates in Competitive Markets

Among the four largest California metro markets, San Francisco has consistently reported the highest average daily room rate (2019 ADR = $251), followed by Los Angeles ($180), San Diego ($167), and Orange County ($166). The ADRs for three of the four largest metro markets increased in 2019, ranging from 4.3% in San Francisco County to 0.4% in San Diego County. The ADR in Los Angeles County remained the same in 2019 as in 2018%.

Occupancy rates in 2019 for the four metro areas ranged from 76.8% to 82.1%. San Francisco County recorded the highest room occupancy rate (82.1%), followed by Los Angeles County (79.8%), Orange County (78.0%), and San Diego County (76.8%). The occupancy rates in 2019 increased in Orange County by 0.5%, and by 0.1% in Los Angeles County. They decreased in San Diego County (-2.5%), and remained the same in San Francisco County (0.0%).

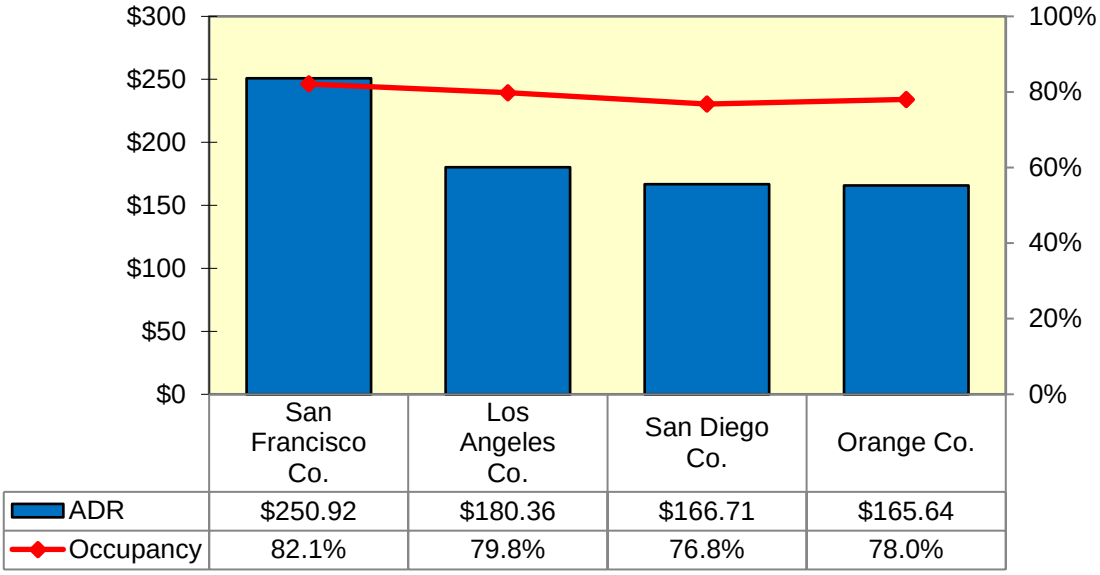

Table 2
Comparisons of ADR & Occupancy Rate for Selected California Counties (2018-2019)

Metro Area	ADR			Occupancy		
	2018	2019	Percent Change	2018	2019	Percent Change
San Francisco County	$240.66	$250.92	4.3%	82.1%	82.1%	0.0%

Anaheim Lodging Industry Performance

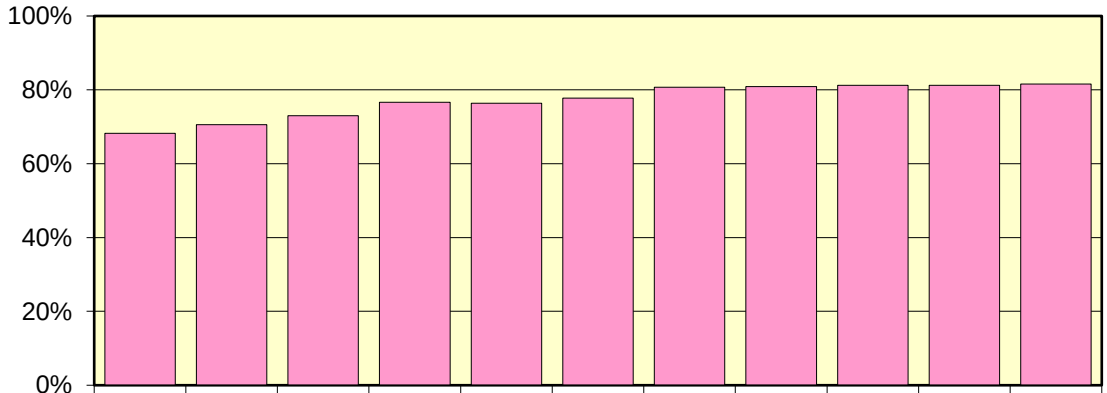

The 2019 average daily room rate (ADR) for Anaheim hotels was up from 2018 and the occupancy rate was very slightly higher. There was a 5.2% increase in ADR to $180 from $171, and little change in occupancy rate to 81.6% from 81.2%. Over the last decade the Anaheim hotel ADR grew 72.5% from $104 in 2009, and the occupancy rate grew 19.5% from 68.2% in 2009.

Anaheim Visitor Industry Infrastructure

Disneyland Star Wars Attraction. Construction began in April 2016 on the 14-acre Star Wars: Galaxy's Edge-themed land and opened as scheduled on May 31, 2019. Access to Star Wars: Galaxy's Edge was restricted from May 31 through June 23 to visitors with reservations. The reservation-only soft opening gave Disneyland an opportunity for a controlled introduction of Galaxy's Edge and a chance to understand how visitors react and respond to Black Spire Outpost on the "Star Wars" planet of Batuu. The first date that reservations were not required was June 24, 2019. Star Wars Rise of the Resistance opened later than expected on January 17, 2020. While several attractions in Frontierland were closed to make room for the new Star Wars attraction, a new Marvel Land in Disney California Adventure was scheduled to open July 18, 2020.

Due to the Covid-19 Virus, Disneyland closed on March 14, 2020 and, as of this writing, is due to remain closed until further notice

ORANGE COUNTY 2019 VISITOR PROFILE SUMMARY

This chapter highlights the market profile of Orange County visitors and their trip characteristics. Table 4 on the following page summarizes the characteristics of visitors to Orange County by their type of accommodation in the County (e.g., a hotel or a private home of friends or relatives). A visitor is not a resident of Orange County and is not in the County for daily employment.

Orange County Visitor Volume and Total Spending Estimates

- Approximately 50.2 million visitors (+0.1%) spent almost $13.5 billion dollars (+3.3%) in Orange County in 2019.
- Day visitors to Orange County increased slightly by 0.1% and were the largest visitor segment accounting for over 28.73 million visitors (57%) of the 50.21 million visitors to the County.
- Visitors with hotel accommodations in Orange County accounted for 25% (12.40 million) of the total visitors. Visitors to OC who stayed in the homes of friends or relatives accounted for 7.12 million visitors (14%), and 1.96 million visitors (4%) reported other overnight accommodations such as RVs or camping, timeshares, rental apartments, condos, or second homes.
- Visitors with hotel accommodations in Orange County generated more than $8.3 billion in spending within Orange County. Visitors with hotel accommodations accounted for 25% of all visitors and generated 62% of the total visitor spending in the County.
- Day visitors to Orange County generated about $1.56 billion in spending within the County. Day visitors accounted for more than 57% of all visitors, but only 12% of the total visitor spending.
- Visitors who stayed overnight as guests of friends or relatives in Orange County generated $2.16 billion in spending within Orange County accounting for 16% of total visitor spending in the County.
- Visitors with other overnight accommodations in Orange County (1.96 million) generated about $1.5 billion in spending within Orange County.

Origin Markets for Orange County Visitors

- More than half (55%) of OC visitors were from Southern California, but only 14% of all overnight visitors were from Southern California.
- In contrast, almost 85% of day visitors to Orange County in 2019 were from Southern California. (down 8.6% from 93% in 2018)
- Eight percent (8%) of all visitors were from Northern California, 15% of visitors were from other western states, almost 13% were from the rest of the U.S., and over 9% (4.6 million) were international travelers.
- The largest metro-area origin market for visitors to Orange County was Los Angeles, which generated 26% of all visitors. Riverside/San Bernardino accounted for 19% of OC visitors, San Diego 6%, San Francisco 3%, and Phoenix generated slightly less than 3%.

Daily and Total Trip Spending

- Average daily spending in Orange County during 2019 was $112 per visitor, down around -4% from the $117 per visitor reported in 2018. Average total trip spending in Orange County per visitor was $268, up 3.1% from $260 in 2018.
- Daily spending by visitors who stayed in a hotel was $177. Average total trip spending in Orange County per hotel visitor in 2019 was $670, up 2.1% from $656 in 2018.
- Daily spending by leisure visitors who stayed in an Orange County hotel was $170. Average total trip spending in Orange County per hotel leisure visitor was $665.
- Daily spending by business and convention visitors who stayed in an Orange County hotel was $201. Average total trip spending in Orange County by business and convention visitors with hotel accommodations was $551.
- Private home visitors spent about $64 per day while in Orange County. Their daily spending was approximately one-third the amount reported by hotel guests, but their average length of stay was longer at 4.7 days, compared to hotel stays of 3.8 days.

Figure 12

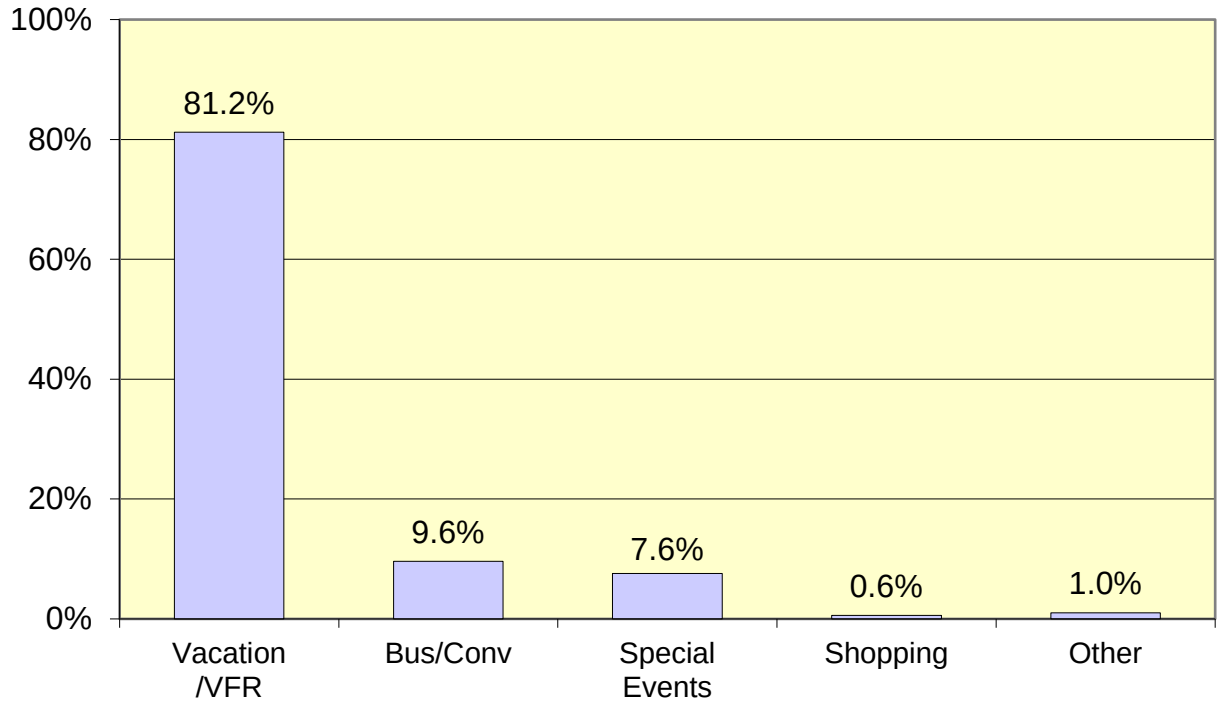

Average Daily Spending Per Visitor to Orange County in 2019

Visitor Transportation and Purpose of Trip

- Approximately three-quarters (73%) of visitors to Orange County came by car, and one-quarter (25%) arrived by air (including any Southern California airport).
- While in Orange County, 80% of visitors primarily used their own private vehicle or that of a friend or relative for transportation. Eleven percent (11%) of visitors drove a rental car, 4% used a taxi/rideshare, while 3% relied on a shuttle, bus, tour bus, or limo. About 2% of all visitors reported that walking was their primary means of transportation.
- In comparison, 53% of visitors with hotel or motel accommodations in Orange County reported that they drove their own private vehicle or that of a friend or relative while in Orange County, 25% of visitors drove a rental car, 12% made use of a taxi/rideshare, 8% relied on a shuttle, bus, tour bus, or limo and 2% reported that walking was their primary means of transportation.
- Approximately 81% of all visitors (including day visitors and overnight visitors) were in Orange County on a pleasure/vacation trip or were visiting friends and family, and 10% were conducting business or were there for a convention, conference, or tradeshow.
- Of those who stayed in a hotel in Orange County, 64% were either on vacation or were visiting friends and family, and 29% were conducting business or were there for a convention, conference, or tradeshow.
- Of the day visitors to Orange County, 96% were there for leisure purposes including vacation/pleasure, visiting friends and relatives, special event and shopping, while almost 3% of day visitors were on business or attending a convention while in the County.

Figure 13
Primary Purpose of Trip for Visitors to Orange County (2019)

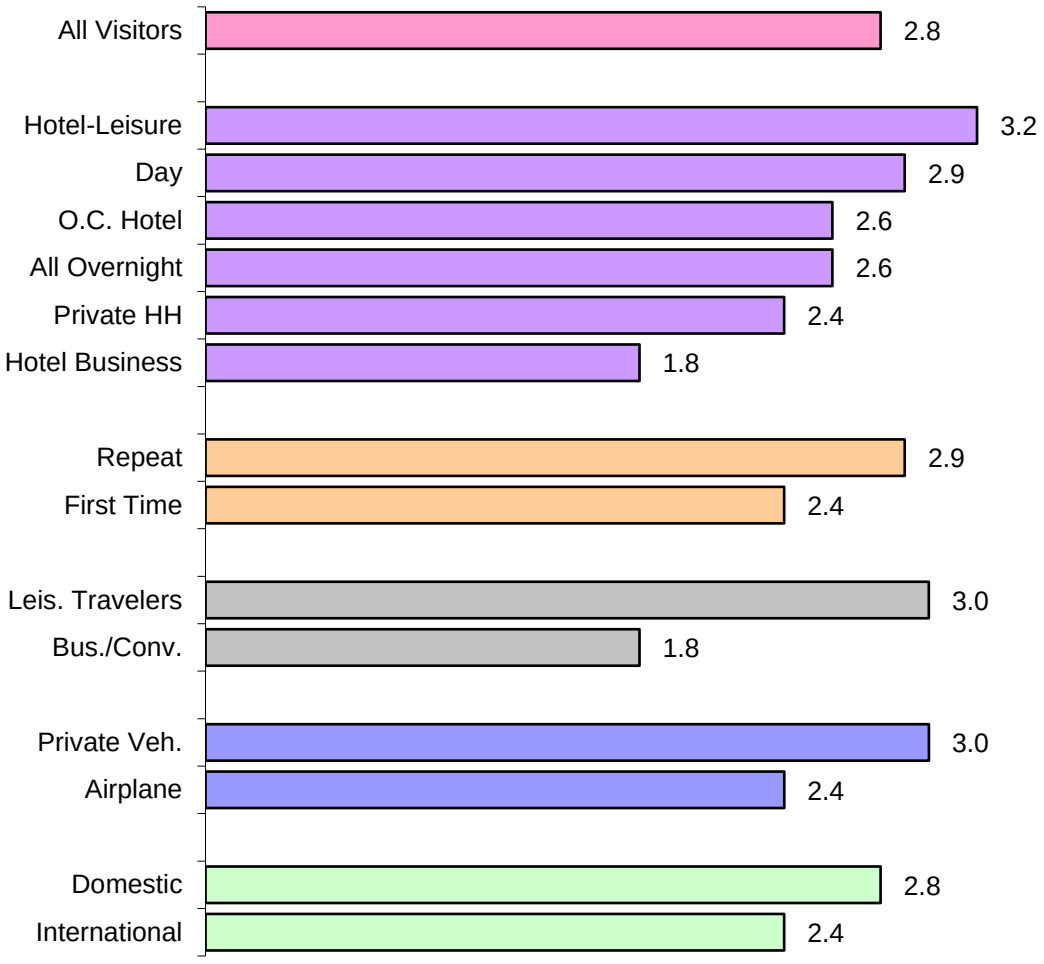

Age of Household Head and Children in Travel Group

- The median age of the head of household for all visitors was 40 years (41 years in 2018). The median age of all visitors was 34 years (36 years in 2018).
- For visitors with hotel accommodations the median age of the head of household was 44 years (45 years in 2018) and the median age of household head for day visitors was 36 years (the same as in 2018).
- Thirty-seven percent (37%) of all Orange County visitor groups had children in the group. Day visitor groups included children 42% of the time, while 36% of private home visitor groups included children, and almost 5% of business or convention visitor groups reported traveling with children.
- Approximately three in ten (29%) hotel visitor travel groups included children. Hotel leisure groups were more likely to include children (48%) while hotel business and convention travel groups were generally unlikely to include children (4%).
- Approximately 24% of international visitor groups included children.
- Forty-three (43%) percent of visitors who arrived by private vehicle reported children in their group, compared to only 26% of visitor groups arriving by air.

Travel Group Size

- The average travel party size for all Orange County visitor groups was 2.8 people.
- The travel group size for visitors with hotel accommodations averaged 2.6 people. Hotel leisure travel groups averaged 3.2 people, while hotel business/convention travel groups averaged only 1.8 people.
- Private home visitor groups averaged 2.4 people, while day visitor groups averaged 2.9 people.
- Domestic visitors and international visitors reported an average of 2.8 and 2.4 people respectively in their travel groups.

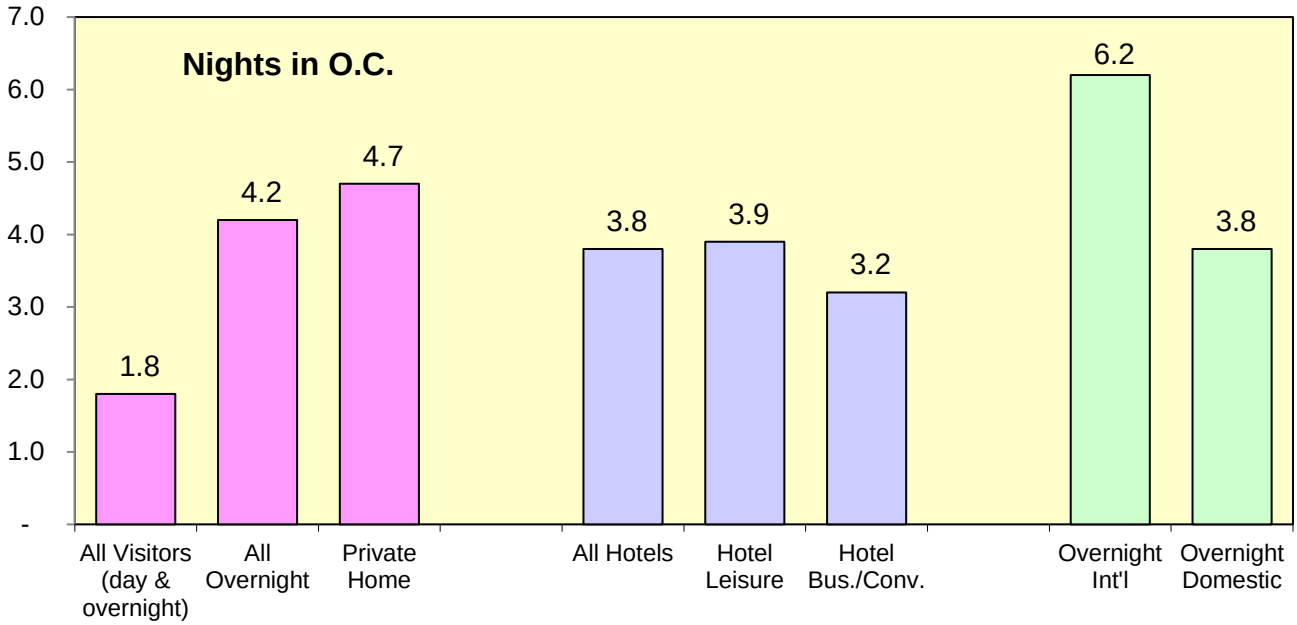

Figure 14
2019 Orange County Visitors – Average Travel Group Size

Length of Stay and Frequency of Visit

- Overnight visitors stayed an average of 4.2 nights in Orange County in 2019, up from 3.7 nights in 2018 and 3.9 nights in 2017.
- Similarly, private home visitors reported a longer average length of stay in 2019 (4.7 nights) compared with 2018 (3.9 nights) and 2017 (4.4 nights). Hotel/motel visitors stayed an average of 3.8 nights in 2019 compared with 3.4 nights in 2018 and 3.3 nights in 2017.
- Overnight international visitors stayed an average of 6.2 nights in OC, compared to overnight domestic visitors (3.8 nights).
- Visitors reported an average of 2.1 years since their last visit to Orange County in 2019 (2.8 years reported in 2018).
- Ten percent (10%) of Orange County visitors reported that they were on their first visit to the area in 2019 (5% in 2018).
- Overnight visitors who reported they were on their first trip to Orange County totaled more than 16%, while 5% of day visitors were first-time visitors.
- Twenty percent (20%) of convention/business travelers with hotel stays reported that it was their first visit to Orange County (13% in 2018 and 9% in 2017).
- More than 16% of leisure travelers with hotel stays reported that it was their first trip to Orange County (13% in 2018 and 10% in 2017).

Figure 15
Length of Stay in Orange County
(2019)

Visitor Trip Planning

- In 2019, almost six in ten (58%) of visitors to Orange County reported using the Internet as a trip planning information source (67% in 2018). The Internet is the most commonly used trip planning source reported by visitors.
- Of those visitors who used the Internet for Orange County trip planning, the web sites most frequently used were travel/airline sites (32% in 2019/25% in 2018) the Knott's Berry Farm site (19% in 2019/18% in 2018), and the Disneyland site (12% in 2019/15% in 2018). Other sites mentioned by Internet users included hotel sites (9%), google and map sites (7% each respectively).
- Twelve percent (12%) of visitors to Orange County in 2019 (22% in 2018) relied on their friends or family as a source of information for their trip, while more than one-third of visitors in 2019 (37%) (compared with 25% in 2018) reported that they did not make use of any information to plan their trip.
- Thirteen percent (13%) of all Internet users reported viewing the Visit Anaheim website in 2019, lower than the response reported in 2018 (20%). Eighteen percent (18%) of leisure hotel travelers who used the Internet reported viewing the Visit Anaheim website, down from 29% in 2018 and 32% in 2017.
- Four percent (4%) of all Orange County visitors consulted a travel agent or travel club in 2019 (5% in 2018 and 2017). Of those visitors who consulted a travel agent, 68% used the agent for travel arrangements (55% in 2018 and 47% in 2017).

Trip Satisfaction

- On a scale of 1 to 10, where 1 means very unsatisfied and 10 means very satisfied, the average rating given by visitors to Orange County was 8.8 in 2019, compared with 8.7 in 2018, and 8.6 in 2017.
- The majority of the visitors (95%) said that their visitation to Orange County met or exceeded their expectations, including almost 16% of visitors who reported that their visit to Orange County exceeded their expectations.
- Of the visitors who said their visit exceeded their expectations, 15% each respectively said that they liked the beaches, the rides were open during their visit/they like amusement parks, and they had a great time/things went well. Fourteen percent (14%) mentioned the good weather, 10% said they liked Anaheim/Orange County, and 9% had good customer service/nice people. Seven percent (7%) mentioned the good hotel/ restaurants/food as well as Orange County being a beautiful/pretty place. Six percent (6%) said they liked that it was not crowded/short lines great shopping, and 5% that it was a clean/safe place.
- Approximately 5% of visitors reported dissatisfaction with their Orange County trip experience in 2019 (1% in 2018).
- Of the 5% of visitors who reported dissatisfaction with their experience in Orange County, 23% said there were problems with parking and local transportation (6% in 2018), 21% said the traffic was bad/road construction (5% in 2018), 14% reported problems at the amusement parks (47% in 2018), 15% reported that the rides/attractions were closed (18% in 2017), 12% reported bad weather (8% in 2018), 10% said it was too costly (6% in 2018), 8% reported problems with the hotels/restaurants (the same as in 2018), and 7% reported there were long lines or crowds (6% in 2018).

Household Income

- The median household income of all visitors to Orange County in 2018 was $89,500 $86,900 in 2018).
- The median income of Orange County visitors with hotel accommodations was $121,900, while Orange County private home visitors reported a median household income of $83,900.
- Business and convention travelers who stayed in Orange County hotels reported the highest household incomes ($126,700).
- Day visitors to Orange County reported a median household income of $78,100.

ANAHEIM 2019 VISITOR PROFILE SUMMARY

This chapter highlights the market profile of Orange County visitors who reported that they had visited Anaheim during their Orange County trip. Table 5 on the following page summarizes the characteristics of visitors to Anaheim by their type of accommodation in Anaheim (e.g., hotel) and their purpose of trip (e.g., leisure or business/convention). The profile of day visitors to Anaheim is also listed in the table.[4]

Anaheim Visitor Volume and Spending Estimates

- There were an estimated 24.2 million visitors to Anaheim during 2019, representing a 1% decrease for the year. These Anaheim visitors spent approximately $9.3 billion in Orange County, which was an increase of 3.1% from the previous year.
- Day visitor volume to Anaheim decreased 1.3% for the year to 18.2 million visitors. Day visitors represented about 76% of the 24 million visitors to Anaheim during 2019.
- Visitors with hotel accommodations in Anaheim remained at 5.2 million Anaheim visitors (the same as in 2018), or about 22% of all visitors to the City.
- Visitors to Anaheim with other overnight accommodations in Anaheim accounted for about 700,000 visitors (these include staying with friends and relatives, in an RV park, timeshares, rental apartments, condos or second homes.) This is the same as in 2018.
- Visitors with hotel accommodations in Anaheim generated almost $4.2 billion in spending within Orange County and accounted for almost half (45%) of all Anaheim visitor spending.
- Anaheim visitors with other overnight accommodations generated $367 million in spending, about 4.0% of all Anaheim visitor spending.
- Day visitors to Anaheim generated more than $4.7 billion in spending within OC and accounted for about 51% of all Anaheim visitors spending.

Anaheim Visitors by Accommodations in Orange County

- Approximately 25% (5.9 million) of the 24.2 million total Anaheim visitors stayed overnight in Anaheim during 2019. The remaining 75% of Anaheim visitors were day visitors to Anaheim.
- Of the 5.9 million Anaheim visitors with overnight accommodation more than 88% (5.2 million) stayed in a hotel in Anaheim. The remaining 0.7 million overnight visitors had other overnight accommodations (e.g., private home, apartment, timeshare, RV, etc.).
- Of the 18.2 million day visitors to Anaheim, over 7.2 million (40%) did have overnight accommodations elsewhere within Orange County. The remaining 11 million Anaheim day visitors (60%) did not have overnight accommodations in Orange County.

[4] Orange County residents are not included in the Orange County visitor survey and are not included in the profile of Orange County visitors who visited Anaheim. An Anaheim visitor with hotel accommodations in Newport Beach is defined as a day visitor to Anaheim.

Origin Markets for Anaheim Visitors

- About 45% of all Anaheim visitors were from Southern California, but only about 13% of the Anaheim overnight visitors were from Southern California. In contrast, more than half (55%) of day visitors to Anaheim were from Southern California.
- Almost 11% of Anaheim visitors were from Northern California, 17% of visitors were from other western states, 16% were from the rest of the U.S., and 12% (2.89 million) were international visitors.
- The largest metro-area origin market for visitors to Anaheim was Los Angeles (23%). Other major metro-areas that generated visitors to Anaheim included Riverside/San Bernardino County (13%), the San Francisco metro-area and San Diego County (5% each respectively).

Daily and Total Trip Spending in Orange County by Anaheim Visitors

- Average daily spending by Anaheim visitors during 2019 was $127 per visitor (2018 = $136). Average total trip spending in Orange County per Anaheim visitor was $384 (369 in 2018).
- Daily spending by Anaheim visitors who stayed in a hotel or motel was $192 (2018 = $193). Total trip spending in OC per Anaheim hotel visitor was $800.
- Daily spending by Anaheim visitors who stayed in other overnight accommodations (e.g., private home, timeshare, apartments, or RVs) was $120 per visitor. Total trip spending was $524 per visitor.
- Leisure Anaheim visitors spent about $118 per day while in Orange County (2018 = $130). The total spending per Anaheim leisure visitor was $340 (2018 = $332).
- International visitors to Anaheim reported average daily spending of $161 (2018 = $166) and the total spending in OC per international visitor was $1,060 ($863 in 2018).

Figure 19
Average Daily Spending by Visitors to Anaheim (2019)

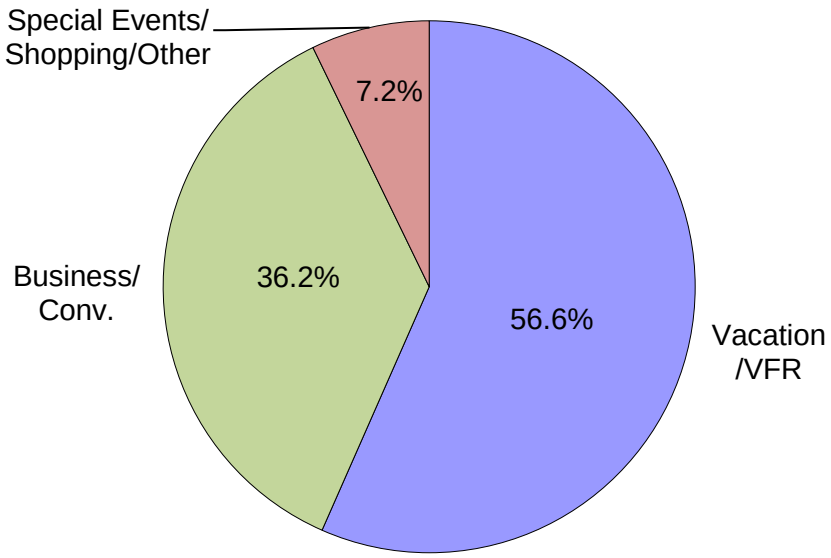

- Anaheim leisure visitors with hotel accommodations in Anaheim spent an average of $197 per day and a total of $826 in OC during their average stay of 4.2 nights.

- Anaheim business and convention visitors with hotel accommodations in Anaheim spent an average of $184 per day and $758 during their average stay of 4.1 nights.

Anaheim Visitor Transportation and Purpose of Trip

- More than six in ten (64%) Anaheim visitors came by car (private/rental vehicle) and 34% arrived by air, as their primary means of transportation to arrive in Southern California/Orange County.
- Over seven in ten Anaheim visitors (71%) reported that they primarily used their own private vehicle or that of a friend or relative for transportation while in Orange County.
- In addition, 14% reported that they drove a rental car, almost 7% used a taxi/ridesharing service, 5% relied on a shuttle, tour/bus, or limo, under 3% reported that they were primarily walking, and less than one percent of visitors reported using a local bus/public bus/metro for transportation while in Anaheim.
- Almost six in ten (57%) overnight Anaheim visitors were in Orange County on a pleasure/vacation trip or were visiting friends and family.
- About 36% of overnight Anaheim visitors came for business or a convention/meeting and 7% attended a special event (e.g., sporting events, concerts, etc.).

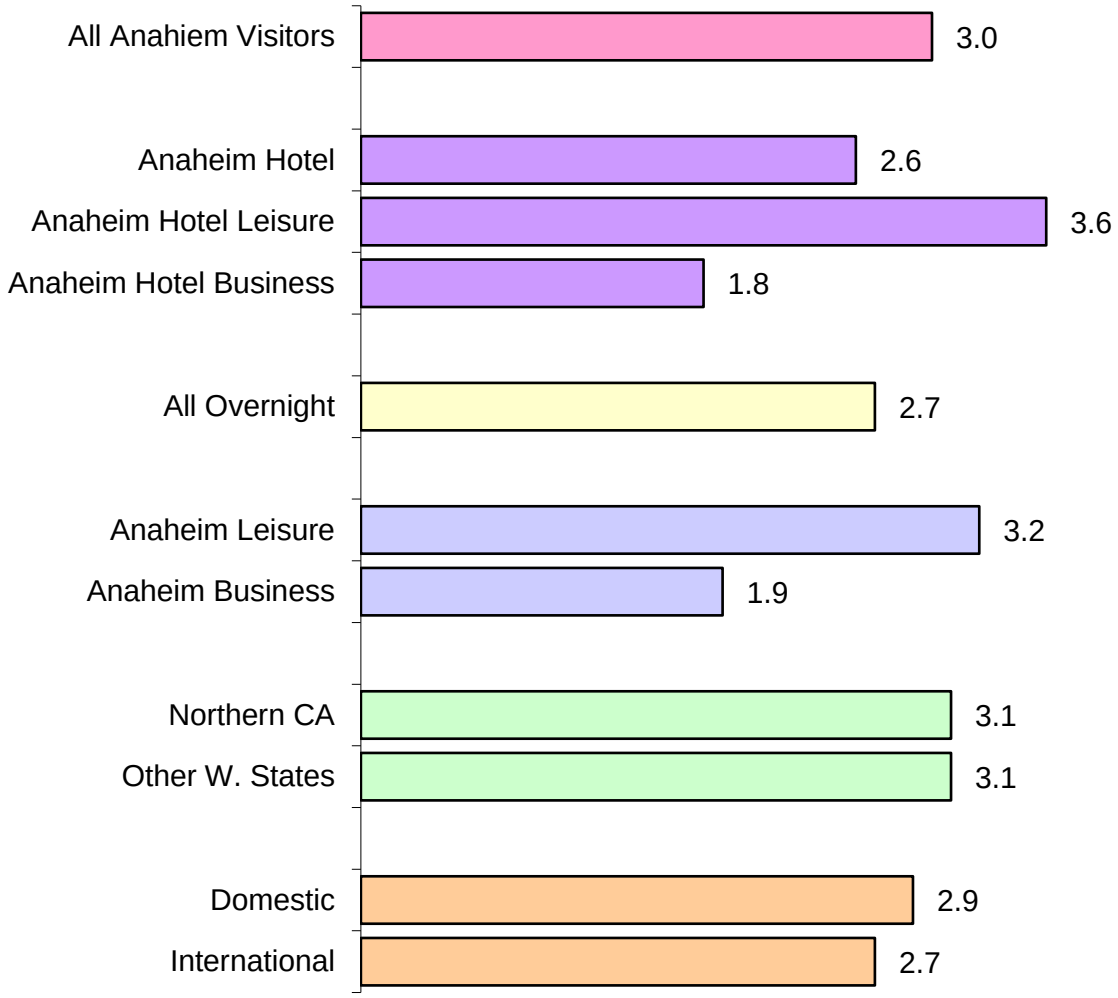

Figure 20
Primary Purpose of Trip for Overnight Visitors to Anaheim (2019)

Travel Group Size

- The average travel party size for all Anaheim visitor groups was 3.0 people in 2019.
- Anaheim hotel leisure travel groups averaged 3.6 people, while hotel business and convention travel groups averaged 1.8 people.
- More than one-half (55%) of Anaheim hotel business and convention travel groups were one-person groups.
- Anaheim business and convention visitor travel groups (overnight and day) averaged 1.9 people per travel party, while Anaheim leisure visitor travel groups tended to be larger with an average of 3.2 people.
- The overall domestic visitor travel group size averaged 2.9 people, while international visitors reported an average travel group size of 2.7 people.

Figure 21
2019 Anaheim Visitor Travel Group Size

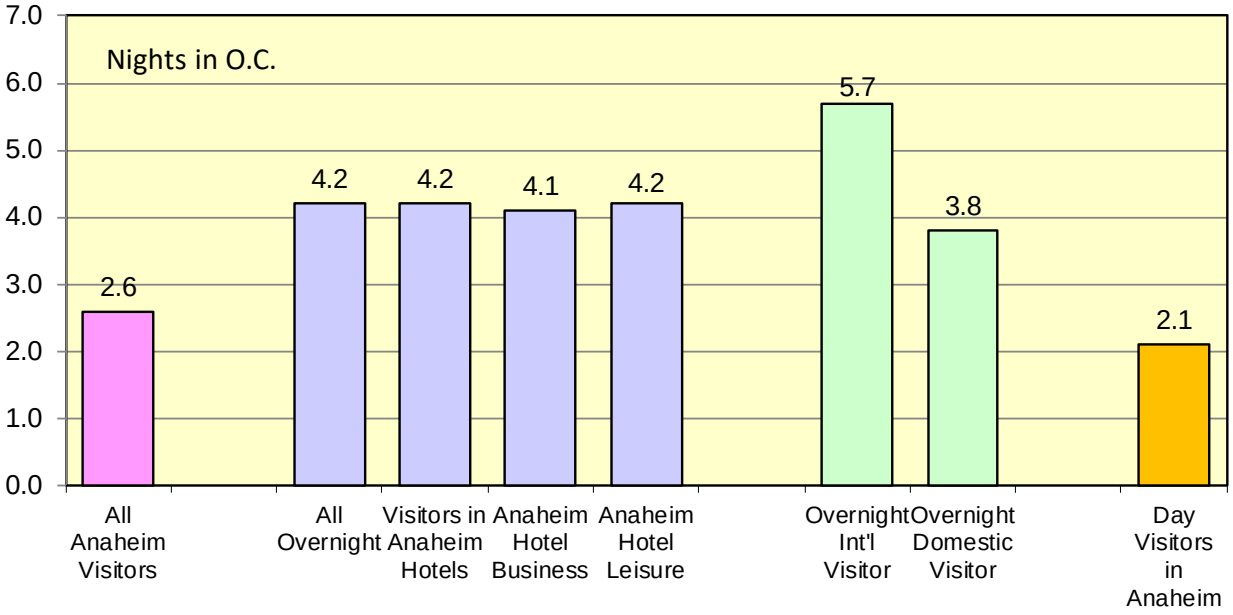

Age of Head of Household and Children in Travel Group

- The median age of the head of household was 40 years for all Anaheim visitors; 42 years for hotel visitors and 39 years for day visitors.
- More than four in ten (42%) of all Anaheim visitor groups had children in the group. About 50% of Anaheim leisure visitor groups reported traveling with children, but only 6% of Anaheim business or convention visitor groups reported traveling with children.
- One-third (34%) of Anaheim international visitor groups included children while 42% of Anaheim domestic visitor groups included children.
- Almost half (46%) of Anaheim day visitors reported children in their group, compared to 32% of overnight visitor groups traveling with children.

Length of Stay and Frequency of Visit

- Anaheim hotel/motel visitors stayed an average of 4.2 nights.
- About 54% of the Anaheim hotel guests reported that the main purpose of their trip was leisure. These leisure hotel visitors reported an average length of stay of 4.2 nights.
- Anaheim hotel guests who reported that their main purpose of trip was business or convention stayed an average of 4.1 nights.
- Anaheim visitors who stayed overnight in the home of a friend or relative reported an average length of stay of 4.4 nights.
- The average length of stay for all overnight visitors with accommodations in Anaheim was 4.2 nights.
- Overnight international visitors reported a longer average length of stay in Anaheim (5.7 nights) than domestic overnight visitors (3.8 nights).
- Anaheim visitors reported an average of 2.3 years since their last visit to Orange County.
- More than 12% of Anaheim visitors reported that they were on their first visit to the area. The percentage of first-time visitors to Anaheim in 2018 and 2017, was 8% each.
- About 22% of overnight visitors to Anaheim and 8% of day visitors to Anaheim reported they were on their first trip to Orange County.

Figure 22
Anaheim Visitors Length of Stay
Nights in Orange County
(2019)

Anaheim Visitor Trip Planning

- The trip planning information source used most often was the Internet, with 51% of all Anaheim visitors reporting that they looked for travel information on the web.
- Visitors with Anaheim hotel accommodations were more likely to use the Internet for trip planning (77%), than were day visitors to Anaheim (42%).
- When prompted, 13% of the visitors to Anaheim in 2019 reported having ever viewed the Visit Anaheim website (23% in 2018 and 28% in 2017).
- Six percent (6%) of all Anaheim visitors consulted a travel agent or travel club. Of those visitors who consulted a travel agent, more than three in four (75%) used the agent for booking travel arrangements.
- More than four in ten (46%) visitors reported that they did not require any information to plan their trip (42% in 2018). Five percent (5%) of visitors relied on their friends or family as a source of information for their trip (10% in 2018).

Trip Satisfaction

- On a scale of 1 to 10, where 1 means very unsatisfied and 10 means very satisfied, the average rating of trip satisfaction was 8.8 (8.9 in 2018).
- The majority of the visitors (95%) said that their visitation to Orange County met or exceeded their expectations (97% in 2018).
- Of the visitors who said their trip exceeded their expectations, 17% said that they had a great time and things went well, 16% each respectively reported that the rides were open/they liked the amusement parks, and that customer service was very good and people were very nice. Thirteen percent (13%) said that the hotel/restaurant/food was good, and 10% said that the weather was good. Other aspects contributing to a good trip to Anaheim included 8% who said they liked Anaheim/Orange County, and 6% each respectively who said it is a clean/safe place and that it is a pretty/beautiful place.
- Less than five percent (5%) of visitors reported dissatisfaction with their Anaheim trip experience.
- Of the small number of visitors who complained about their trip to Anaheim, the most frequently mentioned reasons were problems at the amusement parks, with hotels/restaurants, parking/local transportation, long lines/crowds, bad traffic/road construction, and bad weather.

Household Income

- The median household income of Anaheim visitors was $94,600.
- The median income of Anaheim hotel/motel visitors was $124,600 and Anaheim day visitors reported a median household income of $86,100.
- International visitors to Anaheim reported a median household income of $120,400. U.S. residents (i.e., domestic visitors) to Anaheim reported a median household income of $93,100.
